## GROMYKO CHARGES:

# West Cause Of Mid-East War Crisis

UNITED NATIONS, N.Y. (CP) — Soviet Foreign Minister Gromyko blamed the West today for the tense Middle East situation. He declared Russia "cannot watch impassively over a situation that bears upon its own security."

The Soviet leader struck back vigorously at charges made by U.S. State Secretary Dulles, that Russia is endangering peace in the Middle East by sending arms to Arab countries.

Addressing the 82-country General Assembly, Gromyko said:

"The Soviet Union cannot place itself in the position of an impulsive observer while the Near and Middle East—an area close to the frontiers of the Soviet Union—is being turned into a permanent hotbed of military conflicts."

He accused the West of inventing charges against the

## Peaceful Co-Existence Urged

Dulles told the assembly Thursday Turkey is facing a growing military danger" as a result of Soviet arms massed along the Syrian border and also along the Soviet-Turkish frontier.

In this connection, Gromyko said:

## BIG MISSILE FIRED BY U.S.

CAPE CANAVERAL, Fla. (UP) — Another big missile, the fourth this week, sped up with a roar today as the guided missile test centre here stepped up its pace of firings.

Observers outside the top-secret firing area said the long, slim projectile "looked like one of the bigger ones" as it zoomed up into a clear blue sky and headed "down range" over the Atlantic. The missile trailed a streak of orange flame "almost as long as the missile," one witness said.

## U.S. Has Radar To Trace Missiles

WASHINGTON (UP) — The advanced type of radar will be put into use "in the near future" to give U.S. population and military centres "instantaneous warning" of a missile attack.

White's disclosure came on the heels of defence department confirmation Thursday night that this country has flown a test ballistic missile for "thousands of miles."

White told the Defence Orientation Association, meeting at the Pentagon, that the air force has made "recent breakthroughs in the computer, communications, radar and missiles fields."

The army and air force are both working on the two key elements in defence against "the ultimate weapon"—the ICBM.

One is the long-range radar. White disclosed today.

The other is a missile which could be launched in the few minutes' warning time radar would give and could intercept the ICBM somewhere on its trajectory.

The army is developing a missile called ZEUS. The air force is in a much earlier stage of work on a device called Wizard.

## LONDON LOVELY CITY AS FAR AS GIRLS GO

TORONTO (BUP)—A Canadian newspaperman in England reported today he found little to like in London except the girls.

Stan Rantin of the Toronto Star says London is "one of the largest, and undoubtedly one of the dirtiest, most crowded and exasperating cities in the world."

"In six months here, I've lost 40 pounds," he said, "just trying buying a decent meal."

But a redeeming feature of London life "is the London girls," Rantin said. "They sure know how to be women."

REAL TREAT FOR ORPHANS

Stopping over at the pastures of the Protestant Orphanage, this pony gave free rides to Donna (in the saddle). Kathy and Dennis, before continuing his long trot from Errol Hunter's Hol-

iday Ranch to a fall fair at the Curling Club today. The pony and his pals are giving rides to the kids today and all day Saturday at the fair. (Times Photo by Bill Halkett.)

## Asian Type 'Flu in B.C. Tests in Ottawa Verify

OTTAWA (CP) — Asian influenza has been positively identified by the federal hygiene laboratory here in specimens from four provinces. Health Minister J. Waldo Monteith said today, and it "is more than likely" illnesses elsewhere also will prove to be caused by the Asian strain of the virus.

He identified the provinces as British Columbia, Alberta, Ontario and Quebec but did not state what communities are involved nor how many individual cases were identified here.

### SAMPLES TO OTTAWA

The statement from the minister's office, dealing with recent widespread occurrences of influenza-like illness across Canada, also said that the first supplies of vaccine for protection against Asian flu will be distributed to the provinces next month.

PM RESIGNS

Prime Minister Sidney G. Holland of New Zealand resigned today because of ill health. He took office in 1949. Named to succeed him is Deputy Prime Minister Keith Holyoake. (CP)

## Bold Bid by Premier To Save French Gov't

PARIS (Reuters) — Premier Maurice Bourges-Maunoury held an unprecedented conference today with political party chiefs to try to get agreement on an Algerian reform plan and save his government from falling apart.

It is the first time that a premier has appealed to an all-party conference to solve a problem which has proved insoluble within his cabinet. Unless there can be some sort of agreement between right and left there seems no hope the government will survive.

Bourges-Maunoury met with 12 political leaders representing 370 deputies. The only chiefs excluded were from the Communist and Poujadist parties.

To get the reform plan

through the national assembly Bourges-Maunoury must have the support of both conservatives and socialists. The stumbling block is a provision for a central government organ for Algeria with an elected president.

It was said three Communist warships were engaged and routed and that one was possibly sunk. The size of the ships involved was not given. They probably were gunboats.

It is the first time that a premier has appealed to an all-party conference to solve a problem which has proved insoluble within his cabinet. Unless there can be some sort of agreement between right and left there seems no hope the government will survive.

2312 Rollie Gals 1229 Graduate; Me taifid;  
2324 Also eligible:

2326 Mighty Genie, 2227 Form Better; 2320 Bucko's Best; 2322 Temeila,

2322 Mighty Genie, 2227 Form Better; 2320 Bucko's Best; 2322 Temeila,

BEST BET—Rorrie Bay, Sixth Race. Longshot, Lowstep, Eighth Race.

FRIENDSHIP will have nothing to do with the rivalry displayed today at Sandown Park race track between these two old pals. Joe Webster, left, and Alex Duncan, long-standing friends, had not seen each other for six years until they came here for the race meeting. Webster who hails from

California, has been riding in Vancouver while Duncan has been working tracks in his native Oregon. Webster, incidentally rode the longest shot of the Vancouver season, Ropertsland who cracked down to pay off a huge \$151 to win.

## Tory MP to Demand Norman Death Probe

OTTAWA (CP)—The Journal said Thursday a private Progressive Conservative member of parliament is expected to place a motion on the Commons order paper that a royal commission be named to inquire into the case of the late Herb Norman.

The newspaper says that the motion probably will be supported by Conservatives generally and that the government then will agree to appoint the commission. Parliament meets Oct. 14.

Prime Minister Diefenbaker, asked about the possibility of the government appointing such a commission, said "I have no knowledge of that whatsoever; I haven't heard of it."

Norman, Canadian ambassador to Egypt, committed suicide in Cairo April 4 after the internal security subcommittee of the United States Senate renewed old allegations, first

made public in 1951, that Norman had had Communist associations.

Last spring, Conservatives criticized the then Liberal administration for the way in which confidential information obtained by the RCMP had found its way to the U.S. Senate subcommittee through the hands of the FBI.

Former external affairs min-

ister Pearson said the U.S. Senate subcommittee had obtained its information from an RCMP report which the RCMP itself had soon after branded as false. The RCMP had said its original report was based on 1940 information passed on by a secret agent in Toronto from an unidentified source and was a case of either mistaken identity or unfounded rumor.

### Funeral Service Set For Geologist Daly

## Hand-Made Air Gun Caused Dart Death of Smuggler

GENEVA, Switzerland (UPI)—Swiss police ruled today that a hand-made noiseless air gun

killed adventurer Marcel Leopold without the help of poison.

An autopsy report said a tiny metal dart from the gun caused internal bleeding which poured into Leopold's lungs and suffo-

But Dr. Francois Naville of the University of Geneva said no trace of poison was found on the dart.

Police said Leopold had a mysterious past that included imprisonment in China by the Communists and arrest in 1950 for attempted smuggling of explosives into Algeria.

The 200-pound Leopold staggered to his front door and died in his wife's arms. Police found the air gun hidden under a beauty parlor door mat, a floor below Leopold's apartment.

### GOVERNOR

Continued from Page 1

pages of a story as old as the republic itself—the line of demarcation between federal and state authority.

The issue is clear and simple. Did Faubus make illegal use of the National Guard in ordering the soldiers to keep the Negroes from entering a school, violating the constitutional rights of the students?

That is the government's contention.

Or did the governor's mandate to maintain peace and order in the state give him the right to use the guardsmen on such a mission?

That is Faubus' contention.

## Russ A-Tests Near NATO Fleet

LONDON (UPI)—The Soviet Union is carrying out tests of atomic weapons tactics within a few hundred miles of the huge NATO fleet exercises north of Britain, High Western sources disclosed today.

The sources told United Press that Soviet naval manoeuvres within easy plane travel of the U.S. supercarriers Forrestal and Saratoga were believed to be concentrating on decontamination procedures in the event of atomic fallout.

NATO officials were unable to confirm the report.

A NATO striking force has been operating north and northwest of the British Isles for the last two days as part of seven-day exercises.

The Soviet manoeuvres are around the Barents Sea in the same general area where Russia triggered an underwater atomic blast two years ago this month.

About 10 cruisers, 40 to 50 destroyers and an undetermined number of submarines are known by western sources to be involved in the Soviet manoeuvres.

No atomic blasts had been detected by western monitoring stations up to Thursday morning. But if and when an atomic device is fired by the Soviets it might not be disclosed for some days.

A Soviet trawler, a member of a fishing fleet operating off Scotland, barged into the middle of a group of 50 NATO ships participating in the exercises Thursday.

Rear Adm. H. A. Yeager, attached to the staff of the NATO Atlantic command, said it probably would not be the last.

The 100-foot trawler ignored warnings flashed from U.S. ships to stay clear of the warships and continued on its course.

NATO officials refused to say how the U.S. atomic-powered sub Nautilus was making out as part of the attacking force in the war games because it would tip the defending force to secret strategy. However, they said some information on the Nautilus might be released a little later.

**STRIKE CRISIS IN ARGENTINA**

BUENOS AIRES, Argentina (UPI)—The government today stepped up efforts to end a strike of communications workers before it sparks a general nationwide walkout that would paralyze the economy.

A series of sympathy strikes called for today by other unions lent urgency to the need for a solution.

## Strife Splits Tiny Republic Over Red Rule

SAN MARINO (AP)—Anti-Communists in this tiny republic today set up their own government to oppose the Communist regime that has ruled since the end of the war.

This postcard-sized country was dividing into two camps in a first-class, postcard-size political battle.

The Communist regime held the government palace. The Communists dissolved parliament where they had lost their majority because of defections, and called for new elections Nov. 3.

The non-Communists planned to move their government into another building. They said they would not agree to new elections and would fight the dissolving of parliament.

### POOR RELATION

Ragweed, bane of hayfever sufferers, is a member of the aster family which includes dahlias and chrysanthemums.

## John D. Import Plan Queried by Guardian

LONDON (CP)—The Man-well, Britain, it says, should be Chester Guardian, with the best grateful for whatever percentage will in the world, is dubious he manages to achieve, rather about the practicability of Prime Minister than complain "if what Minister Diefenbaker's project proves possible falls short of a 15-per-cent diversion of Canadian imports from the United States to Britain.

"The total of 15 per cent looks impracticable," says the paper in an editorial. "Unless Mr. Diefenbaker is prepared to risk both unpopularity and upsetting the rhythm of parts of industry in Canada."

The paper says the Diefenbaker plan would involve Canada spending some \$660,000,000 annually on British goods, in addition to the \$484,000,000 spent last year.

"This is a tall order, especially when one realizes that if he (Diefenbaker) were to lift tariffs on such goods as textiles he would hurt Canadian manufacturers more than American, and if he were to get other orders diverted from the Americans they would in many or even most cases be for goods which the United States can supply quickly whereas Britain cannot."

At the same time, the paper wishes the Diefenbaker project

## JAPAN FELT A-QUAKE BUT NOT SO CANADA

TOKYO (Reuters)—Japanese earthquake scientists said today they were "amazed" at the power of the world's first underground atom bomb blast in the United States Thursday.

Seismographs here clearly recorded the explosion of the bomb—equal to approximately 2,000 tons of TNT—800 feet from the top of a desert mesa in Nevada, 7,000 miles away.

Shock waves did not register on equipment in Ottawa or Victoria.

In London, Eng., a museum reported two slight tremors were recorded.

## Israel Hails Dulles For 'Warning' Arabs

By UNITED PRESS

Jerusalem officials today welcomed the latest statement by Secretary of State John Foster Dulles on the Middle East. They saw it as an implied warning to the newly-armed Arab states to keep hands off Israel.

Moscow, and Cairo, however, viewed the Dulles address as an attempt to disguise U.S. designs on the Middle East.

Official quarters in Jerusalem noted that Dulles mentioned only Turkey as a possible victim of Soviet-inspired intrigue.

But said Dulles was the U.S. General Assembly as to turn the Middle East into an American military base.

Egypt displayed its Soviet-made submarines and destroyers in naval exercises in Alexandria harbor Thursday. It was the first large-scale test of new rocket guns with which Egyptian naval units have been equipped. Ships in the harbor fired rockets out to sea while crowds of Egyptians watched on the waterfront.

MOSCOW radio said the Dulles speech showed the U.S. intended to continue and extend its interference in the affairs of Middle East Nations.

Cairo radio said his speech indicated the U.S. planned to turn the Middle East into an American military base.

Egypt displayed its Soviet-made submarines and destroyers in naval exercises in Alexandria harbor Thursday. It was the first large-scale test of new rocket guns with which Egyptian naval units have been equipped. Ships in the harbor fired rockets out to sea while crowds of Egyptians watched on the waterfront.

## Prof. Burchill's Speech

PROFESSOR CHARLES BURCHILL of Royal Roads delivered a thought-provoking address before Victoria Rotary here last week, the rub of which might be summed up in the sentence: "Justice must be above politics." The close attention with which he was heard, and the nation-wide discussion inspired by his remarks, indicate that many Canadians are concerned with the points he raised.

Most Anglo-Saxon countries, the professor noted, have taken the obvious precaution to ensure the independence of judges from political pressure. But in Canada, he said, we have "only moved the problem from the judge to the attorney-general, who has the task of deciding in criminal cases, not, it is true, the guilt or innocence of the accused, but the even more fundamental question of whether or not the guilt or innocence of the accused shall be examined by impartial law courts and finally determined."

The difficulty here, as Professor Burchill remarked, stems from the peculiar status and function of the provincial attorney-general. He is, in the first place, a politician, a cabinet minister and so a party leader. One of his first considerations is loyalty to his own party—he must protect and advance the interests of its supporters and embarrass and frustrate its opponents.

The speaker cited three recent cases which underline the unique character of this problem. In the matter of the Polish art treasures, he said, the Canadian people have cooperated in stealing property belonging to others—jeweled swords, tapestries and other national heirlooms worth at least \$5 millions. Yet the Federal courts are powerless to redress this national shame because the provincial attorney-general, Mr. Duplessis, has said he will never return the treasures to a Communist regime.

In the case of the former Vancouver police chief, Mr. Mulligan, copious reports were carried by press and radio; two men committed suicide after they had been caught up in the mass of hearsay evidence; yet Inspector Mulligan was never brought to trial. Was he guilty or innocent? The public will never know.

More recently—on December 7, 1955—lawyer David Sturdy went with his client Everard to Attorney-General Robert Bonner, presenting a sworn statement and 240 documents which he argued constituted a prima facie case against the then minister of lands, Robert E. Sommers, of "accepting considerations" in the issuance of forest management licences. Mr. Bonner refused to consider the case and in a wire to Mr. Sturdy the following

## 'Risky Business'

M.R. DULLES HAS DESCRIBED the current Soviet arms buildup in the Middle East as risking war. Alarming as the situation may be, it is doubtful if it will become more than a risk. While Russia long-term policy calls for increasing penetration of the area, there appears to be no goal or threat there at the moment that would make a full-scale conflict worthwhile.

The chief risk perhaps lies in the Soviet propaganda that is accompanying the arms sent to various Arab countries. Bolstered by the receipt of arms and the promise of more, one of the excitable states in the Middle East might be moved to launch an attack on a neighbor which would precipitate a much wider and more serious war.

It was this possibility against which Mr. Dulles warned. While the Arab states such as Syria and Egypt are dealing with a largely unknown quantity when they obligate themselves to Russia, the latter power is also manipulating highly volatile compounds.

The abiding Arab threat to Israel, for instance, could quite conceivably seek aggressive expression even though it might be illogical by all

## Plywood From Japan

IN HIS RECENTLY RELEASED forest industries report, Chief Justice Sloan emphasized British Columbia's dependence for a prosperous woods economy on markets over which this country has no control.

This week in Montreal Robert N. Hawes, general counsel of the Hardwood Plywood Institute of the United States has joined others under scoring that point.

Canada, says Mr. Hawes, now supplies only 4 per cent of the plywood imported into the United States, compared to 64 per cent in 1951. Imports from Japan, he adds, have "devastated" the American market. While the comparative fig-

ures are startling, the general trend is not unexpected.

Potential customers and former customers are buying where they believe they are getting the best bargains. When the cost of the Canadian product is too high, the purchasers turn elsewhere for their supplies.

The problem of making Canadian exports competitive is one which concerns everyone connected with the forest industries, from the leaders of great firms down to the mill worker, and includes governments whose taxes are a substantial factor in pushing up costs.

## One of Our Doves Is Missing

INNER VOICE

By B. A. TOBIN

## Who Makes Up Your Mind?

I RECALL reading somewhere sometime, about a man who subjected himself to a hypnotic test. While under hypnosis an idea was planted in his mind, to take effect after he awoke. On the Thursday following the incident he was in his room. As six o'clock approached he became more and more restless, and exactly on the hour he obeyed an overwhelming impulse, grabbed up an armful of old newspapers from a table, rushed out into the street and began to sell them. He did not know why he did it, he only knew that he must.

It was not until later, when he recovered his senses, that he learned the explanation. The thought had been implanted, to lie dormant in his subconscious mind until the specified time, whenupon he could not rest until he had carried out the instructions.

I recall, too, a story from one of the Scandinavian countries a year or two ago which told of a man who was, I believe, acquitted of a robbery charge on the grounds that he had been hypnotized into carrying out the orders of another person.

These are pretty hair-raising stories. They open up immense possibilities and unpredictable dangers. Russian and Chinese tactics have demonstrated the terrible power of brain-washing. Under proper mental and physical stresses, no one could be sure of surviving such an ordeal with his mind completely his own.

That same danger now, apparently, is to threaten all TV watchers and moviegoers. I give you fair warning.

### Devilish Design

Perhaps that small news item the other day escaped your notice. It told of the latest diabolical invention of the advertising trade—a development which in its innate ferocity and essential horror could not have been bettered by Torquemada, the Okhrana, the OGPU, the Gestapo or Peiping's most assiduous head shrinkers.

It's the brain child, a most apt term, of a Mr. James M. Vicary—mark that name well—who is described as "a young researcher and amateur psychiatrist."

Let's face it at the outset—there's nothing amateur about that boy. He's right up there in the front rank of the professionals.

Briefly, what he has invented is this:

It's a technique whereby an advertisement is flashed on a TV or movie screen without any perceptible break in the film. The flash lasts only a fraction of a second, and disappears again so quickly that the viewer is not aware that he has seen anything. Hence the name, "invisible advertising."

But although the viewer is not aware that he has seen an advertising message, the message has sunk home nevertheless—according to Mr. Vicary.

Young and amateur Mr. Vicary has certainly started something. Has anybody got an antidote?

## FROM WASHINGTON

## Double Talk in the Mid-East

THE cold-war in the Middle East is being carried on in a special sign language, in a kind of code, which hides what is going on until it has been translated and deciphered. The real struggle is for power and influence inside the Arab governments, and at the moment inside the governments of Syria and of Jordan. The Arab ruling classes, of course, understand this quite well, as do the authorities in Moscow and Washington, in London and in Paris. But they cannot speak plainly. Arab opinion will not accept a frank statement that any Arab countries are the stakes of the competition for influence by the great powers, and that for the time being the Russians are ahead in this competition in Syria while we are ahead in Jordan.

and of Jordan. The Arab ruling classes, of course, understand this quite well, as do the authorities in Moscow and Washington, in London and in Paris. But they cannot speak plainly. Arab opinion will not accept a frank statement that any Arab countries are the stakes of the competition for influence by the great powers, and that for the time being the Russians are ahead in this competition in Syria while we are ahead in Jordan.

Lippmann

But in the code language now in use, we have to talk as if this were 1940 and as if Jordan were Belgium, and as if we were preparing it for resistance to an invasion by a big aggressor. What we are actually doing is to subsidize the army to keep the King on his throne in a government that is not unfriendly to us.

Likewise, the Soviets armed Syria, a country which since it achieved its independence has rarely for long been anything but a military dictatorship.

Syrian politics is made up of the rivalry and the intrigues of groups of army officers, not averse to cutting each other's throats in a struggle to control the dictatorship.

### Soviet Object

The present Syrian crisis has come about because a conspiracy of officers, who are not in power, has, with some support and many promises from Russia, gotten control of the dictatorship. Russia's object is to keep them in power and to strengthen their hand.

But using the code language, Moscow is describing the operation as the defense of Syria's independence against Turkish and American aggression.

The cold war in the Middle East is obscure, intermittent, and indecisive. Nearly all the Arab governments are inherently unstable, having no sound support that can be depended upon among their own people.

This is particularly the case in Syria and in Jordan, and with qualifications it may turn out to be the case in Egypt. The monarchy in Iraq, thanks to a comparatively progressive government, may prove to have a longer expectation of life, as may also Saudi-Arabia, where tribal customs seem still to be strong.

But the political and social structure of the region is so frail that in any period of history, regardless of the ideology, it would have been a standing invitation to a cold war of the great powers.

So, the internal weakness of the Arab states is a continual threat to peace in the world.

### True Agreement

Unhappily, we seem to be inhibited from taking the only course which could conceivably lead toward stability and peace. That would mean to enter into negotiations which produce an agreement among the great powers to establish, if not a settlement, at least a truce in the cold war over the Middle East.

Nobody, however, seems to want this, not the Arabs who denounce it as a revival of the great power imperialism, not the Russians who have seen visions of the expulsion of the Western Powers from Africa, the Middle East and Southern Asia, and not we, who wish to contain the Russians and to exclude them altogether from the Mediterranean and the Indian Ocean.

Yet, although a negotiated truce is impossible, it may yet come about that everything else is intolerable.

(Copyright 1957, N.Y. Herald Tribune)

## The U.S. Thinks It Over

(From The New York Times)

WE in this country will do well to ponder deeply and seriously the warning given us by Canadian Prime Minister John G. Diefenbaker in his speech at Dartmouth College. The Prime Minister spoke moderately. He called attention time and again to the geographic—which bind and unite our two countries. But we may be thankful that he spoke frankly, in order, as he said, "to have causes for disagreement removed, which unresolved may diminish the spirit of understanding which is characteristic of our relationship."

In effect the Prime Minister presented a list of Canada's most pressing economic grievances toward us at the present time. Canadians fear that the concentration of their trade with us, and the sharply unfavorable imbalance in United States-Canadian trade from Canada's point of view, create special problems and special dangers for Canada.

Canadians are not unreasonable suggestions, and Mr. Diefenbaker's spirit of candor and willingness to seek mutually satisfactory solutions provides a setting for ironing out present irritants. Certainly the least we can do is to reply to Mr. Diefenbaker in the same friendly and co-operative spirit and to take the action needed to improve the situation.

These are not unreasonable suggestions, and Mr. Diefenbaker's spirit of candor and willingness to seek mutually satisfactory solutions provides a setting for ironing out present irritants. Certainly the least we can do is to reply to Mr. Diefenbaker in the same friendly and co-operative spirit and to take the action needed to improve the situation.

## As Our Readers See It

### Co-Operation Essential

The remarks of Mr. C. Luff, who in your issue of Sept. 16 charges the CCF with being just another capitalist party, working in the interest of the "profit system," will I fear not accomplish much in the early betterment of human society. Just as well charge the wheat-growers of Canada, (working class people) who also lack markets, or Trade Minister Churchill, now in Europe seeking markets, with interest only in profit making.

After all, either the CCF or any other party or group or class can only work with the tools available, and by and with the votes and support of the "working class," which, if Mr. Luff knows it or not, makes up the whole population of Canada. All have a vote, and all are working people, even if some, having worked harder longer or more successfully, are now managers of business, large farms or industries and are higher paid. Even Andrew Carnegie worked for \$1 per week as a boy, and that was six days too.

If Mr. Luff will study world problems and present development he will see that only broader nationalism, more complete world co-operation as advocated by the CCF will solve the problems confronting not only an imagined separate class, but the whole hungry and working world. Contrary to Marxism of 100 years ago the situation today among all nations and including all colors and nations of people, there are no "classes" that class distinction is out—gone with the wind—all are people. If life, if civilization, is to continue, if survival is possible then co-operation of producers, of parties,

trades, countries, all to the point where we have a valid interest and government is the only means of averting annihilation.

L. J. PEPPER

1085, Verrinder Ave.

### Dollar Choler

I have just returned from a vacation in B.C. and found it an enjoyable experience. Your city of Victoria is unique in its beauty.

While there I read an article by B. A. Tobin in your paper to which I feel impelled to reply.

Mr. Tobin seems to be somewhat bent out of shape on the subject of tourists and their despised "Yankee" dollars which is at variance with the impression the Chamber of Commerce and travel bureaus seek to convey.

I am surprised at the trouble he has with his small change. After I took my 6 per cent beating on paper currency no one with whom I had any financial dealings seemed to give a hoot whether a coin had Roosevelt's or George's profile on it, a pocketful of change was just a handful of scratch.

It is a mystery to me how an "ink-slinger" would be taking in any great amount of pocket change unless he is perhaps following the example of the late James Whitecomb Riley and purveying pornographic poetry to the invading "Yanks."

My idea is that perhaps Mr. Tobin's worries over the imported "Yankee" dollars are trivial. The time to start worrying is when they stop bringing them!

NORMAN R. WORLEY  
Box 1012, Eureka, California.

## Lesson in Integration

THE news stories roll in from Little Rock and southern United States centres where violence flows in a wave behind young Negro children entered for the first time in schools formerly reserved for whites.

I keep telling myself not to blow my gaff. And I take this attitude not because I think the difficulties aren't my business. I think it's everybody's business when people somewhere forget that other humans are human. But I know that I have little understanding of the atmosphere—not enough to reach sound judgments.

How can anyone who has spent most of his life in this community understand the reactions of people in a part of the continent with two or three centuries of different traditions behind them? How can we know the tensions that such traditions and their attempted dissolution create?

In this part of the world we haven't enough significant racial minorities to have developed the hostilities apparent in the south. But we're in no position to be smug. The incident at the Shawnigan Lake Boys School not so long ago relieves us of an inclination to be complacent. And if there is little overt discrimination on racial and other grounds, there's enough to find expression, direct or indirect, in the letters to the editor columns as well as in "quiet gentlemen's agreements" in social life.

## WE'RE NOT PERFECT

I have talked to members of our Jewish community and found quite a number of them aware of a distinction which persuades them that some are not fully accepted here. I don't have to talk to our Indians to know that they lack full recognition as Canadians. I read letters in the paper from a correspondent who is thoroughly convinced that people born in Britain never quite achieve the Canadian way of life. And I'm old enough to remember the attitude a large number of white Victorians adopted toward Chinese when I was a kid.

The change in relationship between whites and Orientals in Victoria during the last generation is one of the bright spots in our civic story. Maybe, too, it's an object lesson in integration. When we were young beach rats in an earlier period here, we knew no better than to call Chinese "Chinks".

The Chinese fruit and vegetable peddlers were fair game for raiding gangs who swiped

bananas and other produce from their carts when they came to our locality. The Chinese fish merchants, who packed their two baskets of fresh catch on a yoke carried across their shoulders, were objects of derision.

Old Hop, the good-natured and tireless handyman who did everything from garden-wood sawing for more wealthy families around the district, was nothing more than a figure of fun—a defenceless butt for loutish practical jokes.

The fish vendors seem to have left the scene. Old Hop has joined his ancestors, leaving an affectionate memory among men who as boys plagued him.

And the Chinese community has proved its worth so often that its members enjoy

## SHINING EXAMPLE

It is my belief that this altered attitude has come about for two reasons. Victoria High School, particularly during the Harry Smith regime, went quietly about the job of ignoring differences between white and Oriental, in providing complete acceptance and appreciation for the children of men and women who had come from China and treating them—as they were entitled to be treated—as young Canadians with all the rights that young Canadians should be given.

The second integration factor, in my opinion, has been a characteristic of the earlier Chinese which facilitated such treatment. The older generation from the Orient never pushed. Its members were there when the community called on them for help—as the community did in extending the appeals of a nation during wartime. But they were never offensively assertive.

The older men substituted dignified restraint for servility in their dealings with the white population. They showed then, and continue to show, an exemplary appreciation of family at a time when family is regarded on this continent as possibly the best of all instruments to form good young citizens.

And as far as the white community is concerned, the older people are learning from the younger. A small incident illustrates the point. One day I sat in a bus with a few high school youngsters of my acquaintance. When we drew up at a stop, an attractive youngster of Oriental origin stepped aboard. I asked one of my young acquaintances who the pretty Chinese girl was.

She answered: "Do you mean that young Canadian girl who just got on?"

In the matter of integration, the young can teach the old. That's probably how it will be done in the southern states.

## UN CORRESPONDENCE

## By CHARLES LYNCH

## Tempers and Tongues

NEW YORK—The United Nations guides form an unsung but far from unappreciated part of the landscape of this headquarters.

They are girls, and they are young, pretty and intelligent—but let the reader put those qualities in the order of their importance.

They are spirited, too. It takes spirit to escort the public through this mass of buildings and keep one's composure at all times, as befits a servant of the United Nations. Sometimes they face problems as difficult in their way as those of their boss, Mr. Dag Hammarskjold. Like Mr. Hammarskjold, they must mind their tempers and their tongues, and try to give the gentle answer that turneth away wrath.

They are not permitted to have opinions, which makes it difficult for them to speak for publication, or to give the public any extensive insight into the events that take place in the various United Nations chambers and council rooms. They have to gloss things over, and sometimes that is not easy when they get a persistent questioner in a tour party.

## TACT ESSENTIAL

The guides do not mention problems as sensitive as that of Kashmir, for they find it impossible to refer to that situation in a way that is not offensive either to the Pakistanis or the Indians. So they pass it over unless a questioner asks about it. If that happens, they have a short, sweet speech about the visit of the president of the Security Council, Mr. Gunnar Jarring, of Sweden, to Pakistan, India and Kashmir. They refrain from any explanation of the problem that he is there to investigate.

Similarly in discussing the Middle East

with their customers, the guides do not mention that Britain, France and Israel attacked Egypt last November, or that Egypt deliberately blocked the Suez Canal. It is difficult to explain the United Nations Emergency Force, the source of much UN pride, without mentioning the incidents, but the guides have a carefully-worded way of doing it.

They are briefed each morning on the events of the day and the lengths to which they may describe them without involving the United Nations in an undesirable way. They are told how to answer difficult questions that may be asked.

An example of what can happen to a girl occurred when one of the British guides was conducting a party from the American mid-west through the building. In the Security Council chamber, one member of the party asked: "Who pays to have this place cleaned?" He repeated the question in every room visited, and the girl patiently explained each time how UN costs are apportioned. At each mention of the fact that the United States pays 33 per cent, there were disgusted comments from the audience.

**QUESTION IRKS**

Finally, the questioner asked the British girl when Britain was going to repay the money she had borrowed from the United States, and answered his own question by saying: "Never, I suppose." The girl flushed, shook her head and finished the tour. Then she went to the lounge reserved for the guides and blew off steam, after five minutes of which she was ready for another tour.

There are 95 of the guides, one-third of them from the United States and the others from almost every member nation of the UN. They work on two-year contracts, most of them are college graduates, and they must be between 20 and 30 years old. In their neat blue uniforms (the Indian and Pakistani girls wear saris) they do much to brighten the atmosphere of this place.

Similarly in discussing the Middle East

## WEATHER SYNOPSIS

## A WINTER CLASSIC

## UN REJECTS RED CHINA BID

UNITED NATIONS, N.Y. (CP)—The powerful steering committee has turned down India's demand for General Assembly debate on whether Communist China should be seated in the UN. It voted 9 to 4 for a U.S. measure shelving the issue for at least a year.

Norway, Russia, Czechoslovakia and Ceylon opposed the U.S. recommendation. Tunisia and Guatemala abstained.

## 4-Day Phone Strike Ends Across U.S.

NEW YORK (AP)—The four-day strike of 23,000 United States telephone exchange equipment installers ended today with agreement on a new contract, and their union ordered an immediate return to work.

Negotiators for the Western Electric Company and the Communications Workers of America settled on pay increases ranging from six to 12 cents an hour plus other benefits in a two-year contract.

The six-to-12-cent boost had been offered by Western Electric in recent negotiation sessions but had been rejected until terms were agreed upon today.

Both sides expressed satisfaction with the settlement, reached after months of negotiations.

## FAMOUS STREET

Downing Street in London was named after Sir George Downing, who was secretary to the treasury in 1667.

## HOME GARDEN

## By HILDA BEASTALL

## Let's Get Cracking On That Fall Work

The lower night temperatures of this week should encourage the laggards among us to begin the fall work without delay. It is human enough to wish to daily with the delights of summer as possible, but with pre-sunrise temperatures dropping in some areas to below 32 deg. F., we should begin to make the Hilda most of each golden day.

If the vegetable rows have an odd lettuce head, a few old radishes, half a dozen carrots or beets, clear them out and dig the soil. You may like to sow fall rye as a winter crop to improve the soil.

A fall garden can be so satisfying in color, form and texture of flowers and leaves that it seems a pity to clutter it with the leftovers from summer.

## DEEP WATERS

The Caribbean Sea has two deep basins in which depths of more than 20,000 feet have been registered.

## DON'T THEIR JOB

There is little merit in leaving plants of snapdragon, petunia and larkspur when only a few blossoms remain at the tips of long growths. They have contributed their beauty for your eyes, now allow them to continue their usefulness in the compost heap by making humus for next year's flowers.

The six-to-12-cent boost had been offered by Western Electric in recent negotiation sessions but had been rejected until terms were agreed upon today.

## ACROSS THE PROVINCE

### Jury Acquits Man Of Murder Charge

(From CP Dispatches)

KAMLOOPS—Stanley Manson, 55, accused of murder in the April 9 death of 66-year-old Russell Tierney, was acquitted here Thursday.

The jury deliberated for just over an hour.

Manson, a carpenter, was charged with shooting and killing Tierney after a dispute in the former's home.

T. G. Bowen-Colthurst, defence counsel, contended that the .22-calibre rifle was used merely to frighten Tierney, who had been warned to keep off Manson's property. He said it was fired accidentally.

#### AUTOPSY ORDERED

NEW WESTMINSTER—A 75-year-old North Burnaby man was pronounced dead at Royal Columbian Hospital here late Thursday after being run over by a truck in a field near his home.

R.C.M.P. said the man, H. C. McLean, may have died of a heart attack before being run over. An autopsy will be held.

#### FOSTER MOTHER HEROINE

VANCOUVER—A foster day care mother carried six young children to safety Thursday when a second-storey bedroom in her house caught fire.

Heroines of the afternoon blaze was Mrs. Selena Grodzki, 44.

Mrs. Grodzki said she had put one of the children to bed in the second-storey bedroom and had gone downstairs with the other children.

"After a few minutes I heard him screaming," she said.

"I ran upstairs and found the curtains on fire in the room."

She said she grabbed him and ran down stairs, and shepherded the other children into the street.

#### RECREATION PARK PLANS

PENTICTON—Recreation Minister E. C. Westwood said Thursday a 34-acre area bordering Penticton is worthy of investigation as a recreation site.

The area is bordered by Okanagan Lake on the north, Eckhardt Avenue bridge on the south, Highway 97 on the west and Riverside Drive on the east.

#### HOME BURNS DOWN

SECHELT—The home of Mr. and Mrs. J. McRae on Mason Road was burned down while both were away Thursday.

Neighbors noticed flames about noon and summoned the Sechelt volunteer fire brigade which was able to save some furniture and the outbuildings.

#### SMASHES STORE WINDOW

VANCOUVER—As his pregnant wife stood helplessly by, an immigrant from Europe smashed a \$300 plate glass window in a department store Thursday evening, then battled with police and store employees.

Badly cut on both hands and wrists, he continued to kick at the broken window until store

## Main Artery Plan for Bay St.

Bay Street will be trans in Victoria West to Richmond and Fernwood. Stop signs on Bay at Shelburne will be give a speedy access to Veterans' and Royal Jubilee Hospitals.

next month with traffic signals All lights will be synchronized at all main intersections.

By Nov. 2, when the opening City council Thursday ap-

roved a by-law which will see set, drivers will be able stop-and-go lights installed to travel from Catherine Street Bay at Blanshard, Quadra, Cook

The synchronized lights will turned to halt Shelburne traffic.

Slow speed limits on Point Ellice Bridge will be removed as will stop signs at both ends of the bridge.

**BUS CHANGE**

At the same time council has asked the B.C. Electric to change its Haultain bus route so buses will travel on Bay between Shelburne and Fernwood.

Bay street was widened in the last few years and resurfaced. The Haultain roadway has weakened and there have been complaints at houses.

The plan to make Bay a through street was advanced by Ald. M. H. Mooney's public works committee earlier this year, but it was at first intended to complete only half the traffic light installations.

Council also approved installation of stop-and-go lights at Hillside and Blanshard and at Burnside and Douglas.

The new fast route is expected to take some traffic away from the Fountain Circle

—those cars which now use Hillside as a fast route to Oak Bay, and south Saanich.

### Bennett to Attend Parliament Opening

Premier and Mrs. W. A. C. Bennett have been invited to attend the opening of Canada's Parliament by the Queen on Oct. 14.

At his Thursday press conference the premier said the invitation came from Prime Minister John Diefenbaker.

Earlier, the premier met Mrs. Ellen Fairclough, secretary of state in the new Conservative

government and the first woman to hold a cabinet post.

"It was a friendly and informal meeting," he said. "We are always happy to have members of the federal cabinet come out to B.C."

"Cabinet ministers should not be tied to their desks... They should get out and see the country. As Canadians our interests should not be limited to any one province."

They told Harold Staples, government town planner and zoning, that the government was allowing further house starts on property already purchased.

The government has announced an immediate ban on any but industrial building in the Taylor area.

**RESTRICTIONS—PROTESTED**

DAWSON CREEK — More than 200 Taylor property owners met here to voice objection to the government's plan to impose building restrictions in their area.

They told Harold Staples, government town planner and zoning, that the government was allowing further house starts on property already purchased.

The government has announced an immediate ban on any but industrial building in the Taylor area.

# Bennett Asks Report On Hydro Job Charges

Premier Bennett hit out at critics of the B.C. Power Commission's Buttle Lake hydro development Thursday by saying the situation had been "greatly exaggerated."

At the same time he said he had called for a full report from engineers in charge of the operation.

He was commenting on reports that a speed-up of work on the earth-fill dam at Buttle Lake had increased cost of the work by \$750,000 and that the steel lining in a 700-foot concrete tunnel at the site had been washed out at an additional cost of between \$200,000 and \$1,000,000.

The commission admitted following a Times report of alleged free-spending related by Camp-

## 'Hate to Think It's Political'

"I have asked for a full report on the situation," the premier said, "and I shall wait for that report before making any comment. At the same time, I understand the commission feels the entire situation has been greatly exaggerated."

Asked if he thought the charges had been made for political reasons, he replied:

"I would hate to think it was political and I am not saying it was. All I want are the facts."

## SIR WINSTON AT EASEL

CAP D'AIL, France (Reuters) — Former British prime minister Sir Winston Churchill is in perfect health and enjoying his "French Riviera" holiday, a member of his staff said today.

Churchill, staying with his wife at a villa near here, spends a lot of time reading and is painting two landscapes and touching up paintings done in the past.

## Prudential Plans Office Building

A single-story office building will be constructed at the corner of Fort and Vancouver soon to provide branch premises for the Prudential Insurance Company of America. District manager Frank Grieve said a district office was set up here Sept. 2 to serve Vancouver Island. Formerly Victoria and Island sales were under Vancouver supervision.

## Lawyer Sought By Iraq Police

BAGHDAD, Iraq. (AP) — Police today ordered the arrest of Kadim Jaffar, Baghdad lawyer who led 130 Iraqis to the International Youth Festival at Moscow. He will be charged with taking part in illegal Communist activities. He is believed to be in Syria.

## MEDICAL SCIENTIST

Robert Koch, the celebrated German physician who died in 1910, is sometimes called the father of modern bacteriology.

bell River sources, that contract work on the Upper Campbell dam had been on a cost-plus basis for three months this year.

Residents in the area charged waste and inefficiency was rampant. They told of a \$50,000 20-ton crane which toppled into the lake weeks ago and is still there.

The commission admitted the owner is still receiving contract payments, but it is hoped to retrieve the crane when water in the dam is at a lower level.

"I have asked for a full report on the situation," the premier said, "and I shall wait for that report before making any comment. At the same time, I understand the commission feels the entire situation has been greatly exaggerated."

Asked if he thought the charges had been made for political reasons, he replied:

"I would hate to think it was political and I am not saying it was. All I want are the facts."

The premier said he had been assured there was "no truth" to stories that Campbell River itself was in danger.

He pointed out that the government does not run the B.C. Power Commission, and the commission is solely responsible to the legislature.

"The commission makes its own decisions," he said.

Asked if there would be an inquiry following the commission's report to him, the premier replied:

"There may not be anything to inquire into."

## LONG BRANCH COACH HAS PLANS

# Elmer's Perked-Up Pontiacs Have That Forward Look

Death and taxes . . . you can always count on them. "And," Elmer Lee adds, "it just so happens there are two other things that you can be sure will happen."

That said Mr. Lee, is the start of a reign that will see Long Branch Pontiacs rule eastern lacrosse circles for the next 10 years and, more important at the moment perhaps, the fact that the eastern challengers will be vastly improved when they step on the Memorial Arena floor to-night.

The occasion is the second meeting between Lee's Long Branch team and Victoria Shamrocks in the best-of-seven fight for possession of the Mann Cup, emblematic of Canadian senior lacrosse supremacy.

Shamrocks lead the series 1-0 on the strength of a 12-4 triumph over the travel-weary Pontiacs Wednesday night.

Lee, the Long Branch pilot, professed he does not wish to see anybody worry about his record. "We'll be all right with a good shot, and should like the big floor."

"With these two practices and plenty of rest, I feel we can take this next game."

"I don't think Geordie Johnson (Shamrock goalie) will play as good as he did Wednesday. I know Geordie. We played together with the old St. Catharines, are both due to step into the series for the first time."

"In order to beat them, we're going to have to do one thing. That's to offset the Shamrock system. They play a game of pass-break-and-

shoot. They fooled us out there for two periods Wednesday, but I think we can stop them in this next game."

"And, don't forget," the amiable coach added, "they scored seven goals against us in the first two periods. Look at the last half. They only outscored us 5-2 and we were supposed to be dead-tired."

While the coming contest was Lee's main concern, he took time out to discuss Long Branch's future. Pontiacs, he said, are going to be the best minor systems in Ontario."

power in eastern lacrosse circles for the next few years."

"Look at these boys," he said with a sweep of his arm around the Long Branch dressing room, "they all have 10 years of lacrosse before them. Not only that, but Long Branch has one of the best minor systems in Ontario."

It's the first time Long Branch has ever participated in a Canadian final and, you get the impression the Elmer

## PREDICTS LONG REIGN IN EAST

who missed Wednesday's tussle when he thought the game was set for the following night and took off on a hunting trip, will step in on a line with Ed Kowalyk and Don Sherry, who worked well with Dugan at Nanaimo last season.

Al Gill will move over to team with Bert Bertoia and Bobby Bremer while the Rocks' first line of Severson, Peewee Bradshaw and Bob Dobbie will remain intact.

Game time is 8.30.

## TITLE BOUT TONIGHT

### Old, But Arch In Top Shape

LOS ANGELES (UP) — A superbly-conditioned Archie Moore attempts to stave off the ravages of time tonight when he enters the ring a 7-5 choice to retain his world light-heavyweight crown against 22-year-old Tony Anthony.

For Moore, it will be the fifth title defence of the championship he won in 1952—and some say it may be the easiest.

Tall Tony has had only 35 fights in his life and, while knocking out 23 victims, himself has been kayoed four times.

The bout starts at 10 p.m. (EDT) and will be nationally televised and broadcast.

#### MUST BE BETTER

If Anthony is to win the crown, he'll have to do better than he did in his last outing—a 10-round draw with Yvon Durelle in Detroit last June. That bout did nothing to enhance the Anthony reputation.

Tony's biggest accomplishment to date was the three-round kayo of Chuck Spieser earlier this year. His 23 kayos mostly have been over comparative unknowns.

Some say this is the crossroads for Archie. His age is some place between 40 and 44 and, by all standards, he should be through.

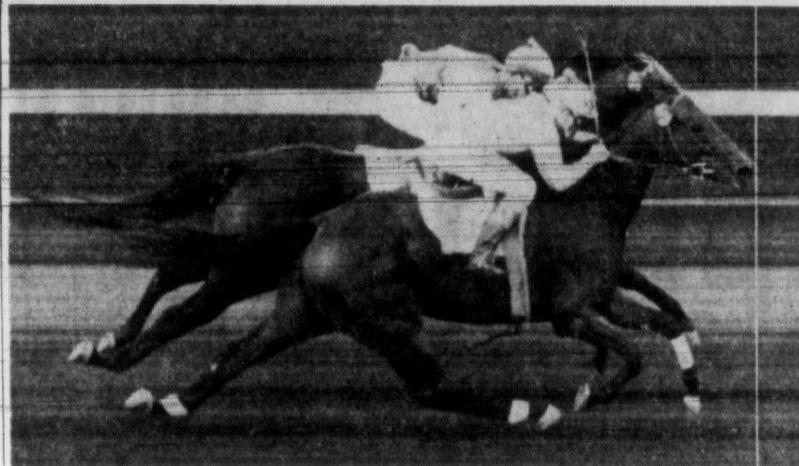

"I not only expect to keep my title," says Arch, "but I hope to go on fighting for at least another five years. And I think I'll try my luck in the heavyweight again, too."

#### FAT PURSE

If this is the cross-roads for Moore, it is one of the better ones. He will receive a guarantee of \$90,000 for putting his title on the line. Except for his heavyweight bouts, in which he was kayoed by Rocky Mariano and Floyd Patterson, it is one of his top pay-cheques in a 20-year career.

For his efforts, Anthony is supposed to get one-third of the gate receipts above \$40,000. Indications are now that the house will gross no more than \$70,000—so what Tony gets probably won't do anything more than cover training camp expenses.

But Mr. Anthony isn't interested in money right now. All he wants to be is champion of the world.

### LAST STRIDES, AND PHOTO, DECIDE IT

Sandown Park's Eye-In-The-Sky picks Noon Gold (5) as winner over My Lads in fifth race Thursday. Finish was even more exciting than photo

shows since the two pulled away from rest of pack in last few yards. Notice stride that carries Noon Gold to wire. It was the only photo of the day.

### Otto Could Give Navy A Bad Nightmare Case

### BETTER SCOOP UP THOSE CHOICE SEATS PRONTO!

The Victoria Hockey Club today issued a reminder that Saturday is the deadline for last year's season ticket holders to maintain the seats they held last year.

With more than 800 tickets already spoken for, the outlook for the coming season is very encouraging. The season starts at Memorial Arena Thanksgiving Day, Oct. 14.

Sets will be available to the general public when the ticket office opens in the Hudson's Bay Company Monday morning.

### JUNIOR LACROSSE

### It's a Poor Time To Stop Running

BRAMPTON, Ont. (CP) — If Victoria Shamrocks have any ideas about taking home the Canadian junior lacrosse championship they will have to start running—and in a hurry.

Running room is disappearing in their best-of-seven series with Brampton Excelsiors for the Minto Cup. The eastern Canadian champions hold a 3-2 edge with the sixth game in Brampton tonight.

Shamrock manager Archie Browning said after Wednesday's 10-5 defeat that his boys were outrun by Excelsiors.

"We play a running game. We have to run to score. Wednesday we didn't and we lost. We have to win Friday, that's for sure."

George Thompson, Brampton coach, refused to become excited as his team stood one game from the championship.

#### BRAMPTON IMPROVES

"We are getting a little better each time out. Last game we had more fight and were picking up loose balls. That's what you have to do to win."

Excelsiors took the loss of Bob Pulford, their leading scorer, in stride. The 200-pound forward left the team after the second game to join the training camp of the National Hockey League Toronto Maple Leafs.

Wayne Thompson, a husky 18-year-old, has done a fine job of handling the heavy work usually done by Pulford and also has played well on the attack.

If a seventh game is necessary, it will be played in Brampton Arena Saturday night.

If a seventh game is necessary, it will be played in Brampton Arena Saturday night.

Excelsiors took the loss of Bob Pulford, their leading scorer, in stride. The 200-pound forward left the team after the second game to join the training camp of the National Hockey League Toronto Maple Leafs.

Wayne Thompson, a husky 18-year-old, has done a fine job of handling the heavy work usually done by Pulford and also has played well on the attack.

# Flying Abbey, Bettors Create Success Story

By CENTAUR

The big money the long-shot players have been waiting for so impatiently finally showed up on the mutuel board at Sandown Park Thursday, when the quinella in the seventh race paid \$525.40.

Six holders of tickets on Indian Springs, No. 1, and Brighton Queen, No. 8, cashed in. The two horses ran that way from start to finish with an odds-on favorite never in the picture. Another outsider, Actland, was third.

It was Brighton Queen who boosted the figures. She started

at 45 to 1 and paid \$24.50. Indian Springs paid an even \$10 to win. The race was truly run. Seven Nites, the favorite, with Broomfield up, having no excuses.

Double figures were on the board in two other races, Noon Gold, a repeat winner and a distinct over in the fifth race, yielding \$16.30 to win in a photo over another last-out winner, My Lands. In the second race, Rio Drive was a surprise winner, rewarding his backers with \$15.70 for \$2.

A genuine romance of the race track was enacted in the featured sixth race when Fly-

ing Abbey came through with his fifth win in a row, the last three on three consecutive days.

I shall get one of my bookkeepers to check whether or not this is a record for B.C. I think it is.

The six-year-old gelding by King's Abbey, far from showing the toll that such racing might have been expected to exact, won in the clear to equal the mile and 70-yard track record of 1.44.

## FISHER LEADING

He is trained by B. J. Fisher, who saddled his fifth winner of the Sandown season to establish a good lead in that department.

The romance of Flying Abbey, however, comes in the fact that he was purchased at the fall sales in Vancouver last year for \$325. His owners, H. Falk, a Vancouver druggist, and D. Haugland, had brought him up from California the year before, but he had such a poor summer through sickness that last autumn they decided to sell him.

When no one would bid more than \$500 for him, they decided on the advise of their trainer to buy him back themselves. It all makes racing seem an easy business in which to make money.

J. Arterburn continued to show the way in the race for jockey honors, bringing home three winners to raise his total for the meeting to eight out of 20 mounts, a remarkable average of 40 per cent.

## BROOMFIELD FOLLOWS

Broomfield rode one winner Thursday bringing his meeting's score to five.

Jockey Ron Williams ran into some bad luck, having to be taken off his last two mounts due to illness. In addition, he was shaken up when Doree Dee came out of the gate clumsily in the second race. We'll let you know how he gets on. Complete details of the day's racing in static form will be found in the form chart on page 9.

Conditions could hardly have been worse for the opening weekend of the deer season. As was to be expected in the hot, dry weather, most hunters came back without venison. Early results indicate Saturna Island, Northwest Bay and areas around Courtenay will be among the better producers after we've had a spell of rain.

\* \* \*

It sounds like a real fish story, but this actually happened to Brian Watt in last weekend's Esquimalt and District Anglers' Association junior derby.

Fishing with his father and Frank Warren, the 16-year-old angler lost his flasher and Strip Teaser when a fish broke his line. About 20 minutes later the trio saw a salmon surfacing and headed in its direction.

Sure enough, it was the same fish and after a bit of lucky work with the net, Brian had his tackle back, plus a 7½-pound coho which earned him fourth prize—a landing net.

\* \* \*

A run of big hook-nosed coho has been keeping anglers busy off Sooke during the past week. The hook-noses are also showing up in fair number off Brotchie Ledge and Trial Island and with tides improving, waters off Victoria could be well worth visiting in the next two weeks.

Coho are still active off Sidney Spit and Saanich Inlet continues to be one of the more productive areas although yielding few large salmon.

Coho, jack springs and large numbers of grilse are being landed in all sections of the Inlet with Misery Bay, the Stone House, Willis Point and Bamerton among the more popular spots.

\* \* \*

Trees are still hitting up-Island, especially in the Alberni canal, but coho are getting the most attention now. They have been hitting consistently off Campbell River and nearby Willow and Shelter points and many other regular salmon areas.

Baseball players Herman Reich, Don "Ducky" Pries, Bill Prior and a stranger in the crowd, ex-cricketer John Pickburn, hauled in a good number of coho during their annual fishing get-together at Qualicum last week.

Most of the silvers were down deep and only a few fell for bucktail flies. The stretch of the Little Qualicum River near the highway bridge also provided a few cutthroat trout with Pickburn topping the batting averages with a three-pounder.

\* \* \*

Arriving by way of the Victoria Fish and Game Protective Association is a reminder to fishermen that there is a small "closed" reserve near the fish traps at Sooke.

The closure is to be on commercial fishing days only and not on weekends.

The closed area will not exceed 300 feet on the westerly side of each trap and will be marked with buoys. If anglers do not respect the reserve, the letter says, the company may have to protect its leases, which in some cases extend over two miles seaward, by closing them to fishing.

\* \* \*

Complement of the Vancouver Island division of the Game Branch is up to strength for the first time in almost a year.

Inspector Bob Sinclair announced this week that George Vincent, one of six new game wardens appointed in the province, has joined the Island division.

Vincent, who comes from Haney, B.C., has been posted to the Victoria area.

## Torpid Takes Lil' Brown Jug

DELAWARE, Ohio (AP)—Torpid Thursday won the 12th annual \$73,528 Little Brown Jug for three-year-old pacers by taking the rain-delayed third heat at the Delaware County fairgrounds.

The bay son of Knight Dream took the two-division classic in straight heats, winning the first in 2:00.4 and the third in 2:03.2.

Meadow Lands, driven by Del Miller, won the second division heat in 2:01 with the five leaders in each division coming back for the payoff jaunt.

## Cowboys' Effort Cue For Coach to Steam

By THE CANADIAN PRESS  
Coach Otto Douglas obviously

was disgusted.

"They didn't even have the guts to take a beating," he said. "They had to start fighting at the end."

His beef was aimed at the performance of his Calgary Stampeders last weekend against Winnipeg Blue Bombers. Stamps were trounced 40-13 and two nights later lost 44-27 to Saskatchewan Roughriders. That boosted Stamps' straight losses in the Western

Interprovincial Football Union to three.

Saturday afternoon at Winnipegs, Douglas' crew will have another crack at the Bombers. But the coach is still smarting over the routs last weekend.

"They didn't have any life at all," Douglas said of the game against Winnipeg. "I've never seen them so dead."

In other weekend action, Saskatchewan Roughriders will take on the league-leading Edmonton Eskimos Saturday at Regina.

The reason I can't get you a fight with Punchy Plzonik is because you're Punchy Plzonik!"

## Field of 43 In Handicap Golf Turnney

Defending champion Gord Cameron of Gorge Vale Heads a field of 43 Island golfers who have already entered the Matson Trophy competition.

The event, emblematic of Vancouver Island handicap championship, will be held at Gorge Vale Sunday, starting at 8:30 a.m.

Post entries will be accepted.

Cameron tied with Cy Spaven in the 18-hole medal tournament at Colwood last year, each with net 67s. Cameron went on to capture a playoff. Bob Fleming, now a professional, won low gross honors a year ago when he came in with a 67.

Following is Sunday's draw: 8:30 a.m.—G. Wade, B. Schnevert, G. L. Hay, S. Davies 8:38 a.m.—N. LaCree, J. McCall Sr., R. Miller, V. Yeomans 8:46 a.m.—D. Drake, G. Cameron, G. Murphy, R. Briggs 8:54 a.m.—J. Robertson, C. McBeth, H. Fletcher, R. Kelly 9:02 a.m.—J. Merriman, V. Painter, J. McColl Jr., R. Chappell, G. H. Donaldson, T. A. Harris, E. Beauchamp, H. Donaldson, T. 9:10 a.m.—L. Woods, V. Clarkson, J. McColl Jr., R. Chappell, G. H. Donaldson, T. 9:26 a.m.—J. Storrie, A. Senior, J. Carr 9:34 a.m.—A. McLeish, R. Spaven, G. Hartley, A. G. Tisdale 9:42 a.m.—R. Goodwin, R. Leader, D. Clarke, O. Penzer 9:50 a.m.—R. Irving, T. Fallon, M. Grute.

## NEW HOME OLD SITE FOR ANTIQUE 'FIND'

VANCOUVER (CP) — A tourist made a real find in Art Atherton's antique shop here—a writing desk made in 1740 which the dealer found on a scouting trip around England.

The satisfied customer now is shipping the desk home—to England.

### PTA ACTIVITIES

## Executives Installed At Round of Meetings

Incoming executives were installed at a round of PTA meetings in the past few days.

Charter member and past PTA president Mrs. J. MacLeod conducted the ceremony at North Ward, installing the following to office:

Mrs. P. Newman, president; Mrs. D. Phillips, vice-president; Miss S. McGill, secretary; Mrs. M. Yule, treasurer; Mrs. J. Whitmore, membership; Mrs. E. Wheatcroft, social convenor with Mrs. M. Bleakley; Mrs. A. D. Midlane, hospitality; Miss A. Bossi, sunshine; Mrs. F. Fuller, radio and recreation; Mrs. J. Matthews, publicity and Mrs. M. Cave, literature.

Mrs. Ruby Walker was elected president at a meeting of Tofino PTA and was installed by Mrs. A. B. Thompson, immediate past president of the Victoria and District Parent-Teacher Council.

Other officers are John Chapman, vice-president; Mrs. Edith Wingfield Digby, secretary; Arthur Pigott, treasurer; Mrs. Frances Smith, publicity and radio; Mrs. Irene Fraser, health and safety, and Mrs. Margaret Cartwright, hospitals. Named council delegates were Mrs. Walker, Mr. Digby, Mr. Chapman, Mrs. Cartwright, Mrs. Digby and alternate Mrs. V. Clark.

## B.C. Colnoy Japan's Plan If War Won

LONDON (Reuters) — Australian author Richard Story says the Japanese planned to set up governors-general in Western Canada, Western Alaska and Washington state if victorious in the Second World War.

Story, in his book *Double Patriots*, published Thursday, says the Japanese also planned to incorporate Australia, New Zealand and Ceylon under governors-general, set up governors-general in Central America, and make Burma and Malaya independent monarchies.

Story says the Japanese believed they had a heaven-ordained mission and it was accepted that expansion overseas was not only the will of the emperor but a mandate imposed by heaven.

Ministers were assassinated and governments overthrown by army cliques and secret societies which plotted Japan's course and eventually plunged her into war.

## Winnipeg Awarded Industrial Trophy

For the first time in its nine-year history the provincial government's trade and industrial council has awarded its Canadian Industrial Development Trophy to a person outside council ranks.

Recipient announced Thursday was William Henry Carter, 83, of Winnipeg.

The award is based on individual contribution to Canadian industrial development.

Mr. Carter in 1907 started a Winnipeg contracting firm, in which he has been associated since. Besides his business operations, which included direction of the Winnipeg Electric Co., construction of the Winnipeg Civic Auditorium, Dominion public building and numerous other structures, Mr. Carter has long been associated with civic and provincial agencies formed to stimulate industrial growth in Manitoba.

In 1911 he became the first president of the industrial development board in Manitoba.

He was vice-president of the Winnipeg Electric Co. in 1935, general manager and president in 1940, and operated the utility until it was purchased by the province in 1953.

### HE GIVES AWAY GRAND PRIZES

Is there something you want to know? Do you want to win a set of valuable books or other instructive prizes? Then Ask Andy and those who submit the best questions will receive worthwhile prizes.

The youngster who asks the first question each day receives a 20-volume set of Compton's Pictured Encyclopedia (Canadian edition) and of the second question a Hammond Atom Globe.

Address your questions to "Ask Andy," Victoria Daily Times.

Andy sends a complete, 15-volume set of Compton's Pictured Encyclopedia to Laurence Shuman, aged 12, of Dorchester, Mass., for his question:

#### What is a Tree Frog?

There is a fine photograph of a tree frog in your gift encyclopedia. The little fellow is doing among some leaves. He is squat and comfortable, eyes closed, clinging to a twig with his special feet. It is these special feet which make him a tree frog. They are fitted with little suckers on the toes. Mr. Tree Frog can climb and hang from branches by these sucker toes upside down, if he so chooses.

The tree frog is a cousin of the pond frog. However, when tadpole days are over, he leaves his watery cradle and takes to the woodland. Those special feet enable him to climb up rough bark and cling to smooth branches. There he sits, perched in the sunlit foliage, dozing and waiting.

The cute little fellow is waiting for a fly to buzz by. When this happens, out flicks his long tongue and Mr. Fly becomes a snack. The frog's tongue is fixed to the front of his lower jaw. Normally, it is curved inside the mouth with the tip towards the throat. When a fly buzzes by, the frog opens his mouth and flicks out his tongue like a whip. The fly is trapped on the sticky surface of the tongue and carried indoors to be swallowed.

You will find as many varieties of the tree frog as there are varieties of the ordinary pond frog. So far, we know of 28 different tree frogs. Most of them are somewhat smaller than the ordinary pond frog. And all of them are colored to match the sunlit foliage in which they dwell.

The tree frog, being an amphibian, spends his kindergarten days as a fishy tadpole. Almost always, Mama Tree Frog returns to a pond or quiet stream to lay her eggs. The dark round eggs feed on the glassy jelly and become wriggly tadpoles. The tadpoles feed on the pack.

And the Territory south of the Ohio was soon to change its name also. In 1796 it was admitted to the union as a state. It became Tennessee, the 16th state to become part of the United States of America.

The tree frog, being an amphibian, spends his kindergarten days as a fishy tadpole. Almost always, Mama Tree Frog returns to a pond or quiet stream to lay her eggs. The dark round eggs feed on the glassy jelly and become wriggly tadpoles. The tadpoles feed on the pack.

Officers at Doncaster-Cedar Hill PTA were installed at a recent meeting by Mrs. E. Wills, president of the Victoria and District Parent-Teacher Council.

They were G. S. Taylor and J. R. Mainwaring, honorary presidents; Mrs. B. K. Solheim, president; Mrs. R. C. Henson, vice-president; Mrs. R. B. Beebe, secretary; Mrs. G. E. Colgate and Mrs. M. R. Williams, social; Mrs. Gladys Forbes, literature; A. T. Warder, fine arts; Mrs. F. M. Weston, health and welfare; Mrs. G. A. Wood, preschool; Mrs. E. Wutzke, publicity; Robert Abbott, radio; Mrs. Charles Cameron, membership; Mrs. J. M. Stuart and Mrs. Stuart Brown, program; Mrs. Bert Byers, hospitality; Mrs. G. V. Hooper, parliamentarian, and Mrs. W. E. Rollis, world understanding.

Request for a crosswalk at the corner of Colville and Admirals Roads was endorsed at a recent meeting of Lampson Street PTA. Season's projects include an amateur night for Esquimalt school children and the annual Jabberwocky program.

# Frosh Warned of 'BAC' Degree

More than 600 college students, their shoes and faces shining, attended opening ceremonies at Victoria College Thursday and giggled nervously when they were warned "Don't get bounced at Christmas."

The warning came from Judge J. B. Clearhue, chairman of the College Council.

who welcomed freshmen as "the class of 1961."

Some of the freshmen still clung to their high school sweaters and all clung to their high school friends as they eyed a convoy of black-gowned college professors on the auditorium stage.

They smiled when Dr. W. H. Hickman, college principal, suggested that some may have come to college to play basketball" and they laughed nervously again when he suggested that others had come "to drink coffee in the cafeteria."

"These things I hope you will

do," Dr. Hickman said, "but you are also here to be scholars. Most of you are serious and idealistic enough to seek out some of the values of a college education."

Dr. Hickman said that 613 students, freshmen and sophomores have registered for college to date "and we predict an enrolment of 650 altogether." This would be an increase of 75 students over last year.

In 1960, Judge Clearhue estimated enrolment would climb to 1,000 students.

A degree-granting university by that time would be "fine," he said. "But we'd go away with the idea that we want a new university in Victoria because we don't."

The college would simply be expanded to accommodate the

registration boom and to provide a full university curriculum.

## APPRECIATED BUT . . .

Victoria Chamber of Commerce and Victoria Labor Council have passed resolutions backing the college in its move towards university standing and the college "appreciates the resolutions," Judge Clearhue said.

"But I would like to see some of these people who have passed resolutions get out and spend some money."

The college needs a new library, cafeteria, auditorium, gymnasium, science building and students' residences, he said. "We can't have a degree-granting university in a few years if the U.S. wants to go" with the U.S. government could "go to hell."

Victoria College should continue its affiliation with UBC when it expands to include four-year courses, he said.

Students also were addressed by students' council president Doug Stewart and director of men's athletics on the Athletic Council, Tom English.

Classes start at the college Monday.

## CUPID LANDS AIR RAID OBSERVERS IN TROUBLE

KNOXVILLE, Tenn. (UP)—Civil defence director Mack Blackburn closed a ground observer corps post atop a bank building because love was getting in the way of national defence.

"Some members took their girl friends up there and smooched with them instead of watching for enemy planes," Blackburn said.

Victoria Daily Times FRIDAY, SEPT. 20, 1957 13

## Immigrant Arrivals Top Edmonton Census

OTTAWA (CP)—Enough immigrants arrived in Canada in the first eight months of 1957 to will be 275,000 or more. In June, 1956, the city of Winnipeg had a population of 256,683.

Immigration department officials estimated Thursday that arrivals between Jan. 1 and Aug. 31 totalled 225,000. Edmonton had a population of 224,003 at the June, 1956, census count.

By the end of the year the number of arrivals is expected to be greater than the June, 1956, population of Winnipeg, Canada's fourth largest city.

## IT'S THAT CHAMBER DINNER AGAIN!

## Curtis Would Support Fete for Labor Body

Any Victoria convention of the Canadian Labor Congress, which requests civic aid in entertaining delegates, will have support of Ald. Austin J. Curtis, city council was told Thursday.

"I would personally give it serious consideration—I think it would be good business," he said.

Council upheld its earlier decision to grant the money despite continued opposition by Ald. Hugh Ramsay and Ald. Donald Smith.

## TOO LATE

Ald. Ramsay had planned to ask council to reconsider its action. But he said he had since found out he could only have done so at the last meeting. Anyway, it's "too late." Council couldn't now cancel the gift after advising the chamber it was being made, he said.

All council members but Ald. Lily Wilson spoke on the matter, apparently nettled by several published criticisms and the comment of Ald. Smith that the finance committee, which recommended the donation, is made up of three chamber of commerce directors.

He said the chamber directors have been "a bad influence" on the city and have given council "bad advice."

He blamed the chamber for "keeping out \$2,000,000 from the city coffers over the years" by influencing council against business tax. (It becomes effective for the first time this year.)

"Now we are feasting them," and he added, "I think it is wrong."

Ald. Edgeland felt it would be damaging to the city for council to back out of the banquet arrangements now. But he cautioned council to give "very serious consideration" to similar requests in the future.

Ald. Arthur Dowell said he is still convinced council "did the right thing."

There was no objection from the labor council to the donation the provincial government is making to the national chamber convention.

"Many cities would give their eye teeth to have this convention. It attracts influential men, large industrialists, and might bring new citizens and new industry."

Ald. M. H. Mooney wanted the public to understand the dinner was being held on Sunday—there would be no cocktails and "... just a cold plate and some entertainment."

Mayor Percy Seurah said since Victoria was incorporated in 1862 the city has always given money to conventions.

SAUD, SONS  
READY TO DIE  
FOR SYRIA

CAIRO (AP)—The newspaper Al Akhbar today quoted King Saud of Saudi Arabia as saying "I and my sons are prepared to shed the last drop of our blood to defend Syria."

In a dispatch from its Geneva correspondent, the newspaper said the monarch made the statement in Baden-Baden, Germany, before his departure for Switzerland on Thursday.

The newspaper Al Ahram reported King Saud has accepted a Syrian invitation to visit Syria for important talks.

## Bonner to See Monorail

Attorney-General Robert Bonner will inspect the Wenner-Gren model monorail in Cologne during his four-week visit to Europe starting Sept. 30.

He said he will look over the monorail in view of the fact that the Swedish Wenner-Gren interests are proposing to build a similar railway linking B.C. and the Yukon.

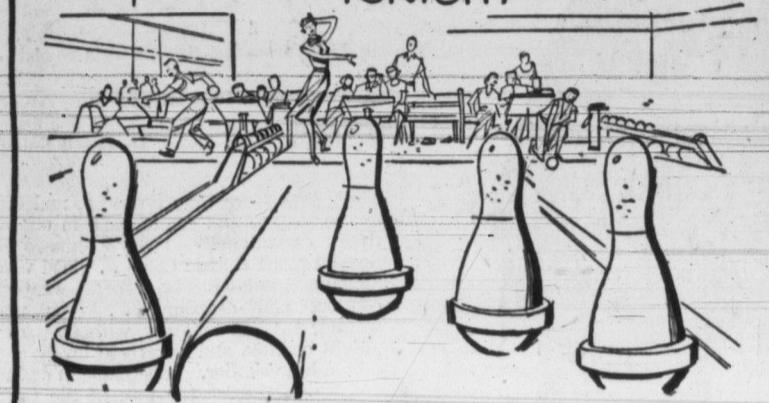

They are now surveying the pean interests who may wish to invest in our provincial re-forestry developments.

Mr. Bonner will go to Europe accompanied by a group of B.C. businessmen, Mr. Bonner, attorney-general, and minister of trade and industrial development.

### COUNCIL BRIEFS

## City May Print Own Voters' List

City Hall will study cost of mimeographing the voters' list this year due to an increase in printing costs.

The only tendered price for the job was 15¢ cents per name, from Heber Printing.

Mayor Percy Scurrall told council in 1954 the contract was let for 8¢ cents and in 1955 and 1956 for 9¢ cents a name.

Council agreed to consider putting out its own list, despite objection by Ald. G. I. Edgeland: "I don't think we should go into the printing business." Later, the bid was rejected by the committee and new bids will be called Monday, Sept. 30.

A recommendation by Ald. Hugh Ramsay's business tax and trade licence committee, which would have reduced trade licence fees for bowling alleys and theatres this year, was withdrawn.

It was learned it is illegal under the Municipal Act to remit overpayments. The changes will likely be proposed again next year.

Council voted \$1,500 from the contingency fund to purchase daffodil bulbs for Beacon Hill waterfront to dress it for Centennial year celebrations in 1958.

Ald. Arthur Dowell objected, saying there were "thousands of bulbs" now in Beacon Hill Park which could be separated.

A public works recommendation for removal of an old stone archway which stands at Bay and Fernwood, was approved.

Ald. Hugh Ramsay said it was of "no historical value and obstructs vision of drivers."

Mayor Percy Scurrall and Ald. J. Donald Smith opposed a council decision to decline without further hearing a National Youth Club proposal to take over Theta Lake Park.

Both council members felt works committee should meet with club principals for further talks.

Are city regulations which cite times bound to observe daylight saving?

If a storekeeper sells a can of beans at 6:45 p.m., but says by his standard time watch it's only 5:45 p.m., he can be prosecuted.

City prosecutor T. P. O'Grady is checking. The matter came up when works committee recommended Tally-ho wagons be barred from streets 8 a.m. to 9 a.m. and 4:30 to 5:30 p.m., to lessen traffic tugs.

(A six-three vote decided to enforce the regulation.)

Sisters of St. Ann asked council to observe regulations in the new Municipal Act and exempt St. Ann's Academy from city tax rolls, effective last July.

At the same time council received a letter from the Humanist Fellowship of Victoria asking council delegates to the

## Money By-Law Sought by Doctors In North Van to Avert Flu Threat

NORTH VANCOUVER, B.C. — The doctor-staff of the General Hospital here says the addressed to all councillors and aldermen in the three communities is "a disgrace to the three communities involved" and asks for immediate action in the form of a money by-law.

The three communities—City of North Vancouver, West Vancouver and District of North Vancouver—are on Greater Vancouver's north shore.

The demand for action was made in a letter signed by E. E. Therrien, president of the med-

ical staff, on behalf of the 62 Eastern Railway disaster or a flu epidemic "which seems imminent," they said.

The letter ended by saying further responsibility in neglecting hospital facilities would lie with the councillors.

Union of B.C. Municipalities convention to oppose private school taxation exemption. Both letters were received and filed.

Several letters and petitions from merchants wishing retention of the Wednesday closing provisions of the new Municipal Act were also filed.

Council will take no stand until learning how the contentious matter is handled by the UBCM convention next week.

City council voted congratulations to city manager C. C. Wyatt, who was recently chosen president of the Canadian Institute of Public Administration.

Council voted to support "any way we can" the observance here of National Civil Defence Day, Friday, Oct. 4.

### Singer Recovering

SANTA MONICA, Calif. (AP) — Attendants at St. John's Hospital report singer Frances Langford is recovering from surgery. She was operated on Tuesday for removal of her gall bladder.

Council voted \$1,500 from the contingency fund to purchase daffodil bulbs for Beacon Hill waterfront to dress it for Centennial year celebrations in 1958.

Ald. Arthur Dowell objected, saying there were "thousands of bulbs" now in Beacon Hill Park which could be separated.

A public works recommendation for removal of an old stone archway which stands at Bay and Fernwood, was approved.

Ald. Hugh Ramsay said it was of "no historical value and obstructs vision of drivers."

Mayor Percy Scurrall and Ald. J. Donald Smith opposed a council decision to decline without further hearing a National Youth Club proposal to take over Theta Lake Park.

Both council members felt works committee should meet with club principals for further talks.

## Yeggs Foiled At Oil Company

Amateur safecrackers who tried to blow a safe at Home Oil Distributors Ltd., 4 Huron, overnight apparently were discouraged by 12 inches of concrete encasing the small vault.

There was no money in it anyway.

Employees arriving shortly before 8 a.m. discovered the attempted robbery when they looked in the manager's office and saw the exposed concrete, a large chunk broken off, and a wooden casing removed.

There was no sign of entry to premises.

Detectives put the attempt down to amateurs because the job evidently had been tried with a cold chisel and the dial had not been tampered with.

### ESQUIMALT NAVAL SHIP MOVEMENTS

Oshawa returns Oct. 3.

Porte Quebec returns Oct. 9.

Fortune leaves 9 a.m. Monday, returns Oct. 4.

USS Redhead, USS Elder at Esquimalt, leave Sunday.

USS Aspro arrives Saturday, leaves Monday.

## MONTE ROBERTS

Thoughts while thinking, but not necessarily . . .

You don't have to be a meteorologist to know that Autumn is here this weekend . . . what else but Autumn comes when Sommers gone? . . . the next person who looks at me when I sneeze and says "there's a lot of it going 'round," I will punch this person right in the nose . . . the only sure cure for insomnia is sleeping . . .

The McCity McCouncil might just as well save its McMoney insofar as the dinner for the Canadian Chamber of Commerce is concerned . . . any possible goodwill this proffering of cold salami and cottage cheese might have achieved has been thoroughly washed down the drain by bickering, backbiting, filling, and attempting to achieve political advantage . . . if I were a delegate to the C of C convention, there is one function I would NOT attend . . . and that, of course, is the City of Victoria's picnic lunch . . .

As they might say in high school debating circles, the British Columbia Power Commission has been called on for a re-buttal . . . but we all do hope and trust that the BCPC will keep its lance sharp . . . that's a private pun, son . . . I would suggest Mr. McPhilips, MP, might do well to perform a little re-buttal of his published remarks about "Liberal" (large "L") civil servants . . . if the Tories intend to brainwash their employees of political beliefs, it's time for a change, already . . .

If Russia is handing out medals in the near future, I hope and trust they'll reserve a good big one for Orval Faubus . . . my, but it's nice to see holes in the streets again . . . whatever became of the roundabout? . . . you never catch insomnia while asleep . . .

Well, I SAID not necessarily, didn't I?

## TOPICS OF THE DAY

Executive of the Victoria and District Parent-Teacher Council will meet all Greater Victoria PTA presidents at a special get-together in the Sprott-Shaw Building tonight at 8.

First general meeting of the Parent-Teacher Council will be held at North Ward School, Sept. 27, at 8 p.m., when plans for a Greater Victoria bursary fund for teacher training will be finalized.

Public works committee of Saanich municipal council will meet tonight at 7:30.

A six-month suspended sentence with \$500 bond for good behavior was handed Walter Evanchiew, 742 Humboldt, in Saanich police court Thursday for theft over \$50 value.

Police said Evanchiew stole a set of tools valued at \$150. Magistrate H. C. Hall insisted Evanchiew agree to follow rigidly conditions of his probation.

Having no stamp of inspection by the market superintendent on a truck used to carry wood fuel cost Sidney L. Roben, 988 Dunford, a \$10 fine in city police court Thursday.

Roben, a logger, said he used the truck to carry fuel only infrequently and did not make a business of wood fuel.

Jang Ling, 627 Huxley, was fined \$25 and \$5 costs in Saanich police court Thursday for burning rubbish without a permit from the fire department.

## ASK The TIMES

Q.—Why does Turkey have a crescent moon on its flag?—K.D.

A.—In 338 B.C., Philip of Macedon besieged a city later called Byzantium. His men scaled the walls in the dark, and defenders, unable to distinguish friend from foe, were about to be overcome when the crescent moon appeared. By its light Byzantines saved the city, and the crescent became the badge of Byzantium, or Constantinople, now called Istanbul.

Q.—Do fish feel pain when hooked?—U.R.

A.—The brain of a fish is poorly developed. The cerebrum, which in man is the centre of thought and reason, is entirely missing. Hence a fish probably does not experience pain when hooked on a line.

Any one wishing a question answered is invited to send the problem along to "Ask The Times" Editor. Questions and answers will be published daily.

All questions should deal with matters of fact and be of general interest. The Times does not undertake to solve riddles.

## Woman, 70, In Head-First Jump From Fire

Unhurt in 10-Foot  
Leap to Safety

Miss Mary Gemmell, about 70, 1057 Chamberlain, escaped unhurt after jumping head-first on to some back stairs from a 10-foot-high window as fire ate into her apartment at 12.20 a.m. today.

Three babies in the same building were taken to safety by other occupants before firemen arrived.

The fire, which started in a chesterfield, caused several hundred dollars damage by flames and smoke in the living room and began burning through a wall into the attic before it was brought under control.

Miss Gemmell said she smelled smoke, became frightened and jumped out the kitchen window, saving her eye-glasses in the effort.

Fire Chief Frank Briers said the woman was lucky to get as far as the window through choking smoke in the ground floor flat, and doubly lucky to have been unhurt in her fall.

"It's a wonder she didn't break her neck," he said.

### KICKED DOOR DOWN

Upstairs, Mrs. Clifford LaRocque and her seven-weeks-old baby, and Mr. and Mrs. Howard McHenry with 22-months-old and five-weeks-old babies, also smelled smoke and went to safety at nearby homes, after first kicking in Miss Gemmell's door to see that she was safe.

"There are too many of these chesterfield fires," said the chief.

"If they don't be a bit more careful, someone is going to be asphyxiated. People should brush off furniture after they've been smoking and before they go to bed."

He said he was not able to determine the exact cause of this fire.

**Bayliss Named  
City Fire Chief**

City council Thursday confirmed the appointment of James E. Bayliss as Victoria fire chief, effective January 1, 1958.

Mr. Bayliss is now deputy to fire chief Frank Briers who retires December 31 on superannuation.

## 10 Fishermen Facing Charges

### 'STRIKE' BY PUPILS GETS EXTRA BUS RUN

A "strike" of 38 elementary school children at Alberni was settled Thursday night at a special meeting of a 12-parent delegation and trustees of School District 70, covering Alberni and Port Alberni.

The children were back at classes today after a four-day walkout protesting inadequate school bus transportation after their transfer from Beaver Creek School to Gill School, outside the city limits.

The parents had withdrawn the students from school because they felt the distance to class was too far to walk.

The trustees agreed to move some of the children back to Beaver Creek School and add an extra school bus to the run.

### All Accused Of Fishing Off Limits

Ten B.C. fishermen will appear at a special court in Sooke Community Hall next Friday to answer charges of infractions of the Federal Fisheries Act.

They are charged with unlawfully fishing with purse seines on the seaward side of a line between Bonilla Point and Tatoosh Island lighthouse — roughly north-south line.

All 10, captains of their own vessels, have pleaded not guilty.

### 70 TO ATTEND

It is expected that, including witnesses, about 70 fishermen will be at the trial.

Purse seining is prohibited outside certain boundaries as part of Canada's participation in the international fisheries agreement.

The trial, originally scheduled for today, was remanded at the request of the defendants.

### FISHERMAN PLAYING HIS OWN 'TUNA'

Direct from ocean to you is the motto today of Vancouver tuna fisherman Monty Carr.

Unhappy with prices offered by fish companies here, skipper Carr of the Western Boy II set up shop on the wharf at the Victoria end of the Johnson Street bridge.

He took 130 tuna 60 miles southwest of Cape Flattery, didn't like the proffered price of 13c a pound, as he needs 25c a pound to break even.

Commercial price offered this season for tuna landed at Victoria is \$265 a ton. In the "palmy" days of 1949-1950, prices went over \$600 a ton.

### BABIES, BAH!

### Beefy Baby Digs Dinah's Sagging Spirit

Times reporter Dinah Kerr has been trying Josephine Lowman's nine-day "get chubby" diet, and she is hoping for success on the last day of her chosen chewing. Her final report will be given Saturday.

By DINAH KERR

Well friends, I've been pretty brave until today but now my spirit is broken.

My brother and sister-in-law came down from Campbell River Thursday night with their 3½-week-old son, Scott.

It could have been a happy occasion. We decided the baby looks like our side of the family and we admired his big feet and pudgy arms.

Then I told the assembly I had gained two pounds on Josephine Lowman's nine-day gaining diet, which incidentally draws to a laughable finish today.

"Two pounds!" my brother cried, his fat stomach heaving. "My kid is averaging 14 ounces a week and he's drinking nothing but milk and sugar and water!"

"Wait till next week," said my sister-in-law, "when we start him on a half-teaspoon of pabulum."

I looked at the baby, lying on a blanket beating the air with tiny fists, and I could feel my face working.

It was then that my mother announced dinner was ready and I pulled myself together. But my heart wasn't in the steak and gravy, friends, nor in the pint of stout that followed.

And you may call it pettiness, but I didn't join in talk of the baby which seemed to monopolize the conversation.

Shortly after I made some excuse, drank my glass of milk and went to bed.

"Fourteen ounces a week," I thought, switching on the heating pad. "He's probably lying in his teeth."

But it was a long time before I could get to sleep.

Tonight I will eat my broiled liver, my lightly cooked cabbage, creamed sweet potatoes with nuts and marshmallows on top and I will drink my milk before retiring.

Saturday I will weigh myself again and report to you. Until then, let's just forget about diet hints, shall we?

### 1,200 Register For Night School

Over 1,200 Greater Victoria residents have already signed up for school board evening classes.

Five classes are filled, J. H. Daigle, director of evening classes said today.

## Just 8 Days To Get On Voters' List

Deadline for registration for Victoria's voters' list is just eight days away and so far not a quarter of last year's non-property-owning voters are registered.

They numbered 2,600 last year. Only 653 have registered in 1957.

A clause in the new Municipal Act, which says all non-property owners who claim a vote must register this year, is expected to disenfranchise many local residents.

Among them will be many businessmen who hold trades licences and might be expected to use their vote in December as a protest against the new city business tax.

BY SEPT. 30

Only property owners were automatically placed on the 1957 voters' list. Resident-electors (anyone who has lived six months in the city) and tenant-electors (persons representing firms paying trades licences) must register before 5 p.m. Sept. 30.

The same situation exists in Saanich, Oak Bay and Esquimalt, in fact everywhere in B.C. except Vancouver.

## Oak Bay Won't Join

Oak Bay will not join Victoria and Saanich in investigating the possibility of setting up a committee to study amalgamation.

It was learned today Oak Bay council is sending out letters to the other bodies saying it will not appoint representatives to the group but would be interested in its report.

Esquimalt council already has decided to request further clarification of the purpose of the committee and how it would operate.

A MUM WITH SOME 'MUMS', Mrs. M. Lumley, 3139 Blackwood, is one of many exhibitors in the Victoria and District Chrysanthemum Society's show of early flowering "mums" and floral displays being held today and

Saturday, 2 to 9 p.m., in First United Church Fellowship Hall. Blooms will be auctioned at 9 p.m. Saturday. Church women's auxiliary is co-sponsoring the show. (Times Photo.)

## PUBLISHER'S NOTEBOOK

By STUART KEATE

### Who Wrote That Poem?

ON Monday night in this space there was a little piece about an original poem written in honor of the Battle of Britain heroes by Sir John Simon, and quoted by Air Vice-Marshal Leigh Stevenson.

Two readers wrote to say the poem wasn't original, and wasn't written by Sir John. They enclosed clippings to prove that a poem much like this was printed in The Times in 1940. It was

called "Dunkirk" and was dedicated to a woman named Susan D'Arcy Clark.

I sent one of the clippings to Leigh Stevenson in Vancouver, asking if he could explain.

In reply, he sent me a copy of the Greek version which Sir John had handed to him at a dinner in March, 1941. He remembers the conversation very clearly, and says that Sir John mentioned composing the piece while he was sitting on the woolsack as Lord Chancellor.

Air Vice-Marshal Stevenson's conclusion: "Somebody was pulling the woolsack over Susan D'Arcy Clark."

I told this story to an eminent visitor one evening this week and he recalled, with a chuckle, luncheon with Lord Simon at Oxford not too many years ago.

"He came to lunch with an arm-full of books," my friend recalled, "saying that he had visited the greatest bookshop in the world. When he offered one to my wife, she

asked him if he would autograph it.

He did—but it wasn't until we returned to our hotel that we looked at the inscription.

It said: "In memory of an oxen spent with me."

Dean Brian Whitlow, who has a lively sense of humor, wrote me a nice note about the "Gluttony" column, but added:

"I personally think brussels sprouts are delicious. We grow them especially in the Deane garden."

"During the war, I once crossed the Atlantic from England with 10,000 Canadians. Sprouts were served daily, and this was the only occasion when I have been able to have as many as I should like. To say that there was little competition for them would be a monumental understatement."

"I can only conclude that an English-born palate is necessary to appreciate their exquisite and delicate flavor."

Now if the good Dean, he

**SHOPPING GUIDE****Goodies Galore to Tempt That Food Lovin' Family**

By PENNY SAVER

Feel hungry? Well, if the weekend promises to be as fine as it was last week, we'll probably find you on the beach, at the lake, or just lazing around the house. But, you still have to feed that hungry family, and you'll be slightly cheered, I am sure, to know that I have found some exceptional specials in food for this weekend. So away we go!

Guess what? Those vegetables seem to be going down, down down, with two bunches of carrots at 17 cents. If you like tomatoes, you'll enjoy them at five pounds for 48 cents.

Potato salad is a picnic favorite and the potatoes will be priced at only 10 pounds for 49 cents. Go and see for yourself!

Well, I guess you'll be getting a steady diet of beets this weekend, because three bunches of beets are 29 cents!

Baked Hubbard squash is a wonderful addition to any dinner table and for three pounds you pay 29 cents.

Pickling these days? Green tomatoes are in season at present, and I found them at five pounds for 25 cents.

Scarlet runner beans are 19 cents a pound now. Mother, give that family a break. Give them beans.

Would you believe it? Cantaloupes are now selling at two for 25 cents.

If you are canning, peaches from the Okanagan are still on the market. They've gone down to \$1.79 a box!

Meats are incredibly low in price this weekend, with steak (sirloin and T-bone) at 79 cents a pound, and rump roast with first cut at 65 cents a pound at 79 cents.

You'll "penny save" this weekend if you find out where I shopped today. Phone me at 2-3131.

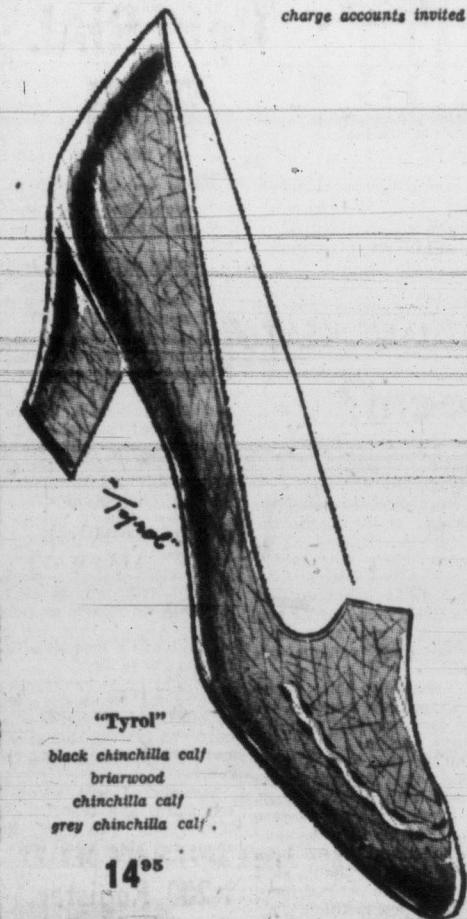

**Institute Members to Gather In City for Annual Meeting**

More than 200 delegates and members representing 22 women's institutes of Vancouver Island South, will gather in the Douglas Room at the Hudson's Bay next Tuesday for the annual conference.

Registration will be at 9 a.m. directly after store opening with sessions commencing at 9.30 a.m. Co-hostesses are the Institutes of Victoria, Craigflower and Strawberry Vale. District president Mrs. E. G. Woodward, Brentwood Bay, will preside.

Special guests at the meeting will be officers of the Clallam County, Wash., Homemakers' Clubs, counterparts of the institutes, who were hostesses to Vancouver Island groups this summer at a picnic gathering. Alderman Austin Curtis, representing Victoria's mayor, will extend the city's welcome. He will be introduced by Mrs. E. E. McEwen, president of the Victoria Institute. British Columbia's superintendent of Women's Institutes, Mrs. Stella Jr.

**WHY GROW OLD?**

By JOSEPHINE LOWMAN

My combination exercises are a bargain in time and in energy! While all exercises use more than one muscle group, some are more effective in slimming several spots with one exercise. In this day of rush and hurry a few good exercises can take the place of dozens of less effective ones. Today I will give you three of my bargains in exercise.

1. Lie on your left side. Bend your elbow and let it rest on the floor, head on hand. Swing your right leg backward as you swing your right arm forward. Your right arm swings backward as your right leg swings forward. Continue, arm and leg moving in opposite directions. Do this with a smooth, long rhythmic swing. If you have trouble getting started on this exercise, start with your right leg back and your right arm forward, and then swing. This is splendid for the hips and abdomen and also gives a little pull at the waist.

2. Stand on tiptoe with your left side to the wall and, if necessary for balance, place your left hand on the wall. Pull your abdominal muscles in and hold them there while you bend your knees halfway down. Straighten your legs and return heels to the floor. Relax. Do the same thing again with relaxations in between. Be sure to keep your back straight (do not bend at the waist) and your abdominal muscles pulled back toward the backbone.

3. The following exercise is slimming to the hips, abdomen, thighs and waist. Lie on the floor on your back with your legs straight and your arms on the floor, extending out from your shoulder pits. Palms face the floor. Cling to the floor with your fingertips. Raise the right leg up at right angles to the body. Cross the right leg over the left and touch the floor on the outside of the left leg. Raise the right leg up to right angles to the body again and lower it to the floor. This is a four count exercise: up, over, back up again, and down to the floor. After a while do the same thing with the left leg, crossing over to the right.

If you would like to have my combination exercises, send a stamped, self-addressed envelope with your request for leaflet No. 5 to Josephine Lowman in care of this newspaper.

**TODAY'S RECIPE****Mediterranean Hamburgers**

Here is a recipe for hamburgers that depends on Spanish olive oil for its special distinction. In a quarter-cup of olive oil saute four chopped garlic cloves until the bits are browned, then add four large hamburger patties that have been salted and peppered. Cook to your taste, using more olive oil, if needed, then place the hamburgers on a platter and pour over the remaining bits of garlic. Serve with sliced tomatoes, peppers, onions, cucumbers, stuffed olives.

With Terms — Mrs. Harvey will be there.

**KER & STEPHENSON LTD.**

909 Government Street 4-4127

3392 Henderson Rd.

In Oak Bay's newest subdivision of fine homes, north of Lansdowne. A charming house featuring massive stone fireplace. A really large living-dining room. 3 bedrooms, 2 bathrooms. \$18,950

Wonderful value at ——————

**Membership Tea Precedes Meeting**

Members of Solarium Junior League gathered last Sunday at the home of Mrs. Verna Elder, the vice-president, for a membership tea.

First meeting of the season was held on Monday evening with the president, Mrs. Gwen Carrier, in the chair. Progress reports were given by conveners on the following projects: Joe Kirkwood gold demonstration; "Paris in Trounce Alley;" annual tag day, Sept. 28, and Farmerette Box Social at the beginning of November.

Final arrangements were also made for the League's mammoth pre-Christmas Carnival in the Bay Street Armory in mid-November. A Mardi Gras Ball will be held next February.

Canadian Daughters League, No. 5, Newstead Hall, Monday at 8 p.m.

## BETWEEN OURSELVES

### Secretary of State Does Not Aspire to Crusader Role

By ELIZABETH FORBES

"I do not consider myself a crusader."

These words were spoken quietly and sincerely by Canada's new secretary of state, Mrs. Ellen Fairclough, at a press conference, yesterday morning.

"I do my work as best I can... I have been a business woman all my life... administration is my forte."

Perhaps that is one reason Prime Minister Diefenbaker has named Mrs. Fairclough the secretary of state, for it would seem, after listening to her enumerate the duties, that Elizabeth administration has a big place in her office.

An interesting phase of her work is to act as liaison between the lieutenant-governors of the provinces and the government; between the governor-general and the government and the government and the government.

Seated in a big over-stuffed chair in the quiet office of Rear-Admiral H. S. Rayner, in HMC Dockyard, Mrs. Fairclough looked completely feminine and relaxed. The duties of her office appeared to sit quite easily on her erect shoulders.

She wore an attractive pink beige suit of fine wool, cut on classic lines, with an Ascot scarf of pale gold and brown knotted at her throat and a small cap-style hat of rose and brown flowers on her short grey hair. Antique gold ear-rings added a perfect complementing note.

The West has not brought them to Canada in October for the opening of Parliament and during the conversation the princess said in proud tones, "She does that sort of thing very well, don't you think?" It was a true sisterly remark and it shows the close relationship between the two Royal sisters.

At a dinner in Buckingham Palace, Mr. Diefenbaker was seated with Princess Margaret.

They were discussing Her Majesty the Queen's visit to Canada in October for the opening of Parliament and during the conversation the princess said in proud tones, "She does that sort of thing very well, don't you think?" It was a true sisterly remark and it shows the close relationship between the two Royal sisters.

Therefore, the question before the West, either fore the Middle East is—which the men stay at home and spiritually, morally or philosophically is more important, an all-prestige silver by an ancient and practical method.

Stuart Morgan who spoke to humanity.

The speaker was introduced by Mrs. D. G. Gibb and thanked Mrs. D. G. Gibb and thanked

Wednesday evening. Her subject most important element in her Miss Mary Richmond.

The Middle East with its-his was the people. Outstanding

past is the home of a among them was the local po-

largely pastoral and also no tentate she met in Tripoli, who W. E. Falk and French conver-

mad people — some 160 miles installed a time clock in his sation—large numbers of whom harem; the nerve specialist ap-

"They have been struck a ter-

rific blow by the incursion of automobile horns and a five-foot "Ma-

da de Farge," who managed to overthrow a government

practically single handed.

Displayed were some colorful abas, the loose garments worn

by Iraqi women of the Christian Nasrani tribe, descended from the Chaldeans and some intricately worked silver from the Subi, whose women reverse

the usual order by seeing to business affairs and acting as

shepherds on small farms, pointed to the city council in Istanbul, whose first decree was "Middle East Impressions," travels through the Middle East

Two new study groups were an-

nounced, education with Mrs. N. Lamont, Mrs. F. McGregor,

Mrs. H. Rusanovs, Mrs. K. Woods, Mrs. C. Salmon, Mrs. J. Ellington, Mrs. L. Tredwell, and Misses Mary Ball, Sylvia Davies, Gurid Dillon, Jean Kunalevich, Jean Carmichael, Ruth Craven, Annette Leland, Marilyn Meti, Julie Naylor and Sharon Brown.

### EX-DUDEY SPEAKS

### Industrial Drive Urged At Nanaimo

**NANAIMO** — Chamber of Commerce here should "sell Nanaimo" as a favored industrial spot, former deputy trade and industry minister E. G. Rowebottom said here Thursday in an address to the chamber.

Campbell River is the fastest growing community on the Island, he said, but its progress will help Nanaimo.

### NEW DRIVE

Mr. Rowebottom advised that all communities within a 30-mile radius of Nanaimo be drawn into a drive for industry.

"If everybody put something into the pot there would be something substantial to start on," he said.

He also stressed the importance of personal contact between chamber, government and industry.

"You can, and do, spend too little time on personal contact," he said, "and you can spend too much money on surveys."

### Tribute Paid Ladysmith Fair Director

**LADYSMITH** — Tribute has been paid Rev. C. McDiarmid, 93, for his direction of the Agricultural Society for many years.

Praise was offered Thursday by CCF leader Robert Shad. The Ladysmith Lions Club was also credited with much of the success of the recent two-day fair.

Mrs. Jack Eilden of Duncan, with highest aggregate in the show of more than 100 points, received the General Pearkes Trophy.

Close runner-up was Don Wilson of Cedar whose fruits and vegetables won the Bank of Commerce Cup.

C. Williams won the T. Bertram Cup for most points in artistic work.

Oldest competitor 87-year-old D. Burgess had the best dahlia pompon of the show, said judge W. Wheeler of Parksville who praised the high quality of the flower arrangements.

### Cedar Club Wins At Ladysmith Fair

**LADYSMITH** (CP) — Cedar Activity Club retained the shield for best district exhibit at the Ladysmith Agricultural Society fair which opened Wednesday.

Among the main trophies awarded were:

Saltair cup for women's work, Mrs. Jack Eilden of Duncan; W. Wilson cup for dahlias, Mrs. J. Hurford of Nanaimo; E. W. Forward cup for flowers, Mrs. David Mason of Ladysmith; Canadian Bank of Commerce cup for vegetables, Don Wilson of Cedar; aggregate for needlework, Mrs. Louis Szasz of Nanaimo.

## Student Profanity Facing Crackdown

**NANAIMO** (CP)—Students will have to watch their language on the Woodlands Junior High School grounds.

### 19% INCREASE AT NANAIMO TOURIST OFFICE

**NANAIMO** — There were 43,286 visitors to the Chamber of Commerce tourist bureau here up to Sept. 12. Jack Evans, tourist committee chairman, reported to the chamber this week.

Despite rainy weather, the total was 19 per cent higher than last year, he said.

Mrs. Gertrude Hall, membership chairman, reported a membership of 258, with 156 or those enrolled in the last year. Potential membership, she said, is 584.

**Threatened Wife, Man Gets 1 Year**

**NANAIMO**—Carl Edward Orloff, who pleaded guilty earlier this week to a charge of threatening his wife with a loaded shotgun, was sentenced Thursday to 12 months in Oakalla Prison.

A conviction was heard in police court for the offence, and the school board has placed the matter in hands of an insurance company.

## ISLAND DIGEST

**Victoria Daily Times** 27  
FRIDAY, SEPT. 20, 1957

### Stop Spraying Say Fishermen

**QUATSINO, B.C.** (CP)—A petition signed by 54 commercial fishermen here asks Fisheries Minister J. Angus McLean to stop further forest spraying until damage to fish can be assessed.

The petition says fish mortality in streams near sections being sprayed is high. The covering of heavy slick oil kills both salmon fry and trout.

**339 Damage To Windows At School**

**NANAIMO**—Cost of 85 panes of glass, smashed at Pauline Haarer School on August 31, is estimated at \$339 for replacement, school trustees heard Wednesday.

Total teaching staff for all schools is now 191, and students total 4,909.

In 1946, schools had 2,722 students. Since then nine new schools have been built to bring the total to 23.

**387 More Pupils**

**NANAIMO**—There has been

an increase of 387 students over

June of this year with an additional 17 teachers employed in

district schools, school inspec-

tor Claude Campbell said Wed-

nnesday.

Total teaching staff for all

schools is now 191, and students

total 4,909.

In 1946, schools had 2,722 stu-

dents. Since then nine new

schools have been built to bring

the total to 23.

## Cows, Dog Killed By Poison in Lake

**NANAIMO** (CP)—Laboratory tests at the University of B.C. confirmed that Somenos Lake near Duncan contains poisonous algae.

It is not yet believed poisonous humans although it may have been responsible for the deaths of three cattle and a dog. The lake is a source of drinking water and is also used by swimmers.

Ron McCandless, North Cowichan councillor, reported three cattle and a dog "dropped dead" after drinking from the lake.

Results of the tests, received Thursday by Dr. E. W. R. Best, mid-Vancouver Island health officer, sparked an immediate in-

vestigation. The report says

the algae, of the "blue-green" variety, has caused the death of sheep in the United States.

Dr. Best said there is no immediate cause for alarm as the water has been piped into homes for years with no ill-effects.

The report said a similar algae, found in the Trout Lake, Vancouver, some years ago, was successfully treated with chemicals.

### RECORD TRIP

Fastest steamship crossing of the Atlantic was by the American liner United States in 1952, three days, 10 hours, 40 minutes.

## EATON'S

### Feature Fruit Trees

Now is the time to plant your fruit trees. Choose from the healthy, sturdy selection you'll find at EATON'S.

## GROMYKO CHARGES:

# West Cause Of Mid-East War Crisis

UNITED NATIONS, N.Y. (CP) — Soviet Foreign Minister Gromyko blamed the West today for the tense Middle East situation. He declared Russia "cannot watch impassively over a situation that bears upon its own security."

The Soviet leader struck back vigorously at charges made by U.S. State Secretary Dulles that Russia is endangering peace in the Middle East by sending arms to Arab countries.

Addressing the 82-country General Assembly, Gromyko said:

"The Soviet Union cannot place itself in the position of an impulsive observer while the Near and Middle East—an area close to the frontiers of the Soviet Union—is being turned into a permanent hotbed of military conflicts."

He accused the West of inventing charges against the

"Peaceful Co-Existence Urged

Dulles told the assembly Thursday Turkey is facing a "growing military danger" as a result of Soviet arms massed along the Syrian border and also along the Soviet-Turkish frontier.

In this connection, Gromyko said:

## BIG MISSILE FIRED BY U.S.

CAPE CANAVERAL, Fla. (UP) — Another big missile, the fourth this week, sped up with a roar today as the guided missile test centre here stepped up its pace of firings.

Observers outside the top-secret firing area said the long, slim projectile "looked like one of the bigger ones" as it zoomed up into a clear blue sky and headed "down range" over the Atlantic. The missile trailed a streak of orange flame "almost as long as the missile," one witness said.

## U.S. Has Radar To Trace Missiles

WASHINGTON (UP) — The Air Force reported today that the U.S. has developed radar which will detect an intercontinental ballistic missile up to 3,000 miles away.

Gen. Thomas D. White, air force chief of staff, said the

advanced type of radar will be put into use "in the near future" to give U.S. population and military centres "instantaneous warning" of a missile attack.

White's disclosure came on the heels of defence department confirmation Thursday night that this country has flown a test ballistic missile for "thousands of miles."

White told the Defence Orientation Association, meeting at the Pentagon, that the air force has made "recent breakthroughs in the computer, communications, radar and missiles fields."

The army and air force are both working on the two-key elements in defence against "the ultimate weapon"—the ICBM.

One is the long range radar

White disclosed today.

The other is a missile which could be launched in the few minutes' warning time radar would give and could intercept the ICBM somewhere on its trajectory.

The army is developing a missile called ZEUS. The air force is in a much earlier stage of work on a device called Wizard.

Mr. Levesque was feeding lumber into planers at the mill when he apparently fell backwards down two steps, injuring the back of his head. There were no witnesses to the accident which occurred at about 10 a.m.

An inquest will be held but no date has been set by Coroner N. H. Jones.

Mr. Levesque is survived by the widow and five children.

## LONDON LOVELY CITY AS FAR AS GIRLS GO

TORONTO (BUP)—A Canadian newspaperman in England reported today he found little to like in London except the girls.

Stan Rantin of the Toronto Star says London is "one of the largest, and undoubtedly one of the dirtiest, most crowded and exasperating cities in the world."

"In six months here, I've lost 40 pounds," he said, "just trying to buy a decent meal."

But a redeeming feature of London life "is the London girls," Rantin said. "They sure know how to be women."

REAL TREAT FOR ORPHANS

Stopping over at the pastures of the Protestant Orphanage, this pony gave free rides to Donna (in the saddle), Kathy and Dennis, before continuing his long trot from Errol Hunter's Holli-

day Ranch to a fall fair at the Curling Club today. The pony and his pals are giving rides to the kids today and all day Saturday at the fair. (Times Photo by Bill Halkett.)

## Asian Type 'Flu in B.C. Tests in Ottawa Verify

OTTAWA (CP) — Asian influenza has been positively identified by the federal hygiene laboratory here in specimens from four provinces. Health Minister J. Waldo Monteith said today, and it "is more than likely" illnesses elsewhere also will prove to be caused by the Asian strain of the virus.

He identified the provinces as British Columbia, Alberta, Ontario and Quebec but did not state what communities are involved nor how many individual cases were identified here.

### VACCINE DUE SOON

The statement from the minister's office, dealing with recent widespread occurrences of influenza-like illness across Canada, also said that the first supplies of vaccine for protection against Asian flu will be distributed to the provinces next month.

White told the Defence Orientation Association, meeting at the Pentagon, that the air force has made "recent breakthroughs in the computer, communications, radar and missiles fields."

The army and air force are both working on the two-key elements in defence against "the ultimate weapon"—the ICBM.

One is the long range radar

## Hand-Made Air Gun Caused Dart Death of Smuggler

GENEVA, Switzerland (UP)—Swiss police ruled today that a hand-made noiseless air gun

### . GOVERNOR

Continued from Page 1  
pages of a story as old as the republic itself—the line of demarcation between federal and state authority.

The issue is clear and simple. Did Faubus make illegal use of the National Guard in ordering the soldiers to keep the Negroes from entering a school, violating the constitutional rights of the students?

That is the government's contention.

Or did the governor's mandate to maintain peace and order in the state give him the right to use the guardsmen on such a mission?

That is Faubus' contention.

killed adventurer Marcel Leopold without the help of poison.

An autopsy report said a tiny metal dart from the gun caused internal bleeding which poured into Leopold's lungs and suffocated him.

Leopold, 55-year-old smuggler and old China hand, died only a few minutes after the dart struck him as he approached the entrance to his downtown apartment.

His last words to his wife were "I've been poisoned."

But Dr. Francois Naville of the University of Geneva said no trace of poison was found on the dart.

Police said Leopold had a mysterious past that included imprisonment in China by the Communists and arrest in Geneva for attempted smuggling of explosives into Algeria.

The 200-pound Leopold staggered to his front door and died in his wife's arms. Police found the air gun hidden under a beauty parlor door mat, a floor below Leopold's apartment.

**FRIENDSHIP** will have nothing to do with the rivalry displayed today at Sandown Park race track between these two old pals. Joe Webster, left, and Alex Duncan, long-standing friends, had not seen each other for six years until they came here for the race meeting. Webster who hails from

California, has been riding in Vancouver while Duncan has been working tracks in his native Oregon. Webster, incidentally rode the longest shot of the Vancouver season, Roperland who cracked down to pay off a huge \$151 to win.

## Tory MP to Demand Norman Death Probe

OTTAWA (CP)—The Journal said Thursday a private Progressive Conservative member of parliament is expected to place a motion on the Commons order paper that a royal commission be named to inquire into the case of the late Herbert Norman.

The newspaper says that the motion probably will be supported by Conservatives generally and that the government then will agree to appoint the commission. Parliament meets Oct. 14.

Prime Minister Diefenbaker, asked about the possibility of the government appointing such a commission, said "I have no knowledge of that whatsoever; I haven't heard of it."

Norman, Canadian ambassador to Egypt, committed suicide in Cairo April 4 after the internal security subcommittee of the United States Senate renewed old allegations, first

made public in 1951, that Norman had had Communist associations.

Last spring, Conservatives criticized the then Liberal administration for the way in which confidential information obtained by the RCMP had found its way to the U.S. Senate subcommittee through the hands of the FBI.

# Bennett Asks Report On Hydro Job Charges

Premier Bennett hit out at critics of the B.C. Power Commission's Buttle Lake hydro development Thursday by saying the situation had been "greatly exaggerated."

At the same time he said he had called for a full report from engineers in charge of the operation.

He was commenting on reports that a speed-up of work on the earth-fill dam at Buttle Lake had increased cost of the work by \$750,000 and that the steel lining in a 700-foot concrete tunnel at the site had been washed out at an additional cost of between \$200,000 and \$1,000,000.

The commission admitted following a Times report of alleged free-spending related by Camp-

## 'Hate to Think It's Political'

"I have asked for a full report on the 'situation,'" the premier said, "and I shall wait for that report before making any comment. At the same time, I understand the commission feels the entire situation has been greatly exaggerated."

Asked if he thought the charges had been made for political reasons, he replied:

"I would hate to think it was political and I am not saying it was. All I want are the facts."

## SIR WINSTON AT EASEL

CAP D'AL, France (Reuters) — Former British prime minister Sir Winston Churchill is in perfect health and enjoying his French Riviera holiday, a member of his staff said there.

Churchill, staying with his wife at a villa near here, spends a lot of time here and is painting two landscapes and touching up paintings done in the past.

## Prudential Plans Office Building

A single-story office building will be constructed at the corner of Fort and Vancouver soon to provide branch premises for the Prudential Insurance Company of America. District manager Frank Grieve said a district office was set up here Sept. 2 to serve Vancouver Island. Formerly Victoria and Island sales were under Vancouver supervision.

## Lawyer Sought By Iraq Police

BAGHDAD, Iraq (AP) — Police today ordered the arrest of Kadim Jaffar, Baghdad lawyer who led 130 Iraqis to the International Youth Festival at Moscow. He will be charged with taking part in illegal Communist activities. He is believed to be in Syria.

## MR. AND MRS. SUITES—DESERT SAND OR WALNUT

bell River sources, that contract on the Upper Campbell dam had been on a cost-plus basis for three months this year.

Residents in the area charged waste and inefficiency was rampant. They told of a \$50,000 20-ton crane which toppled into the lake weeks ago and is still there.

The commission admitted the owner was still receiving contract payments, but it is hoped to retrieve the crane when water in the dam is at a lower level.

He pointed out that problems arise on all big projects and there may have been difficulties due to a speed-up of work to ensure there was no power shortage on Vancouver Island this year.

"Sometimes a speed-up in construction means a saving in money. I am not saying this was so but it could be. I shall know when I get the engineer's report."

The premier said he had been assured there was "no truth" to stories that Campbell River itself was in danger.

He pointed out that the government does not run the B.C. Power Commission, and the commission is solely responsible to the legislature.

"The commission makes its own decisions," he said.

Asked if there would be an inquiry following the commission's report to him, the premier replied:

"There may not be anything to inquire into."

## Yeggs Foiled At Oil Company

Amateur safecrackers who tried to blow a safe at Home Oil Distributors Ltd., 4 Huron, overnight apparently were discouraged by 12 inches of concrete encasing the small vault.

There was no money in it anyway.

Employees arriving shortly before 8 a.m. discovered the attempted robbery when they looked in the manager's office and saw the exposed concrete, a large chunk broken off, and a wooden casing removed.

There was no sign of entry to premises.

Detectives put the attempt down to amateurs because the job evidently had been tried with a cold chisel and the dial had not been tampered with.

## MONTE ROBERTS

Thoughts while thinking, but not necessarily...

You don't have to be a meteorologist to know that Autumn is here this weekend... what else but Autumn comes when Sommers gone?... the next person who looks at me when I sneeze and says "there's a lot of it going round," I will punch this person right in the nose... the only sure cure for insomnia is sleeping...

The McCity McCouncil might just as well save its McMoney insofar as the dinner for the Canadian Chamber of Commerce is concerned... any possible goodwill this proffering of cold salami and cottage cheese might have achieved has been thoroughly washed down the drain by bickering, backbiting, filling, and attempting to achieve political advantage... if I were a delegate to the C of C convention, there is one function I would NOT attend... and that, of course, is the City of Victoria's picnic lunch...

As they might say in high school debating circles, the British Columbia Power Commission has been called on for a re-Battle... but we all do hope and trust that the BCPC will keep its lance sharp... that's a private pun, son... I would suggest Mr. McPhillips, MP, might do well to perform a little re-buttling of his published remarks against "Liberal" (large "L") civil servants... if the Tories intend to brainwash their employees of political beliefs, it's time for a change, already...

If Russia is handing out medals in the near future, I hope and trust they'll reserve a good big one for Orval Faubus... my, but it's nice to see holes in the streets again... whatever became of the roundabout?... you never catch insomnia while asleep...

Well, I SAID not necessarily, didn't I?

## TOPICS OF THE DAY

Executive of the Victoria and District Parent-Teacher Council will meet all Greater Victoria PTA presidents at a special get-together in the Sprott-Shaw Building tonight at 8.

First general meeting of the Parent-Teacher Council will be held at North Ward School, Sept. 27, at 8 p.m., when plans for a Greater Victoria bursary fund for teacher training will be finalized.

Public works committee of Saanich municipal council will meet tonight at 7:30.

\* \* \*

A six-month suspended sentence with \$500 bond for good behavior was handed Walter Evanchew, 742 Humboldt, in Saanich police court Thursday for theft over \$50 value.

Police said Evanchew stole a set of tools valued at \$150.

Magistrate H. C. Hall insisted Evanchew agree to follow rigidly conditions of his probation.

\* \* \*

Having no stamp of inspection by the market superintendent on a truck used to carry wood fuel cost Sidney L. Robarge, 988 Dunford, a \$10 fine in city police court Thursday.

Robarge, a logger, said he used the truck to carry fuel only infrequently and did not make a business of wood fuel.

\* \* \*

Jang Ling, 627 Huxley, was fined \$25 and \$5 costs in Saanich police court Thursday for burning rubbish without a permit from the fire department.

## ASK The TIMES

Q.—Why does Turkey have a crescent moon on its flag?—A.—In 339 B.C., Philip of Macedon besieged a city later called Byzantium. His men scaled the walls in the dark, and defenders, unable to distinguish friend from foe, were about to be overcome when the crescent moon appeared. By its light, Byzantines saved the city, and the crescent became the badge of Byzantium, or Constantinople, now called Istanbul.

Q.—Do fish feel pain when hooked?—U.R.

A.—The brain of a fish is poorly developed. The cerebrum, which in man is the centre of thought and reason, is entirely missing. Hence a fish probably does not experience pain when hooked on a line.

Anyone wishing a question answered is invited to send the problem along to The Times, addressed to the Editor. The Times reserves the right to publish questions and answers will be published daily.

All questions must be of general interest. The Times does not undertake to solve

OIL COMPANY MANAGER for Vancouver Island, Roy I. Murphy, surveys damage to office safe done by clumsy safecrackers who first removed wooden casing from around concrete block containing safe. He said only documents were placed in the safe—never any money. (Times Photo.)

## Victoria Daily Times

VICTORIA, B.C., FRIDAY, SEPTEMBER 20

## Fountain Circle Crash Brings Fine To U.S. Visitor

A Washington visitor to Victoria wrecked his car and damaged the centre island at Fountain Circle when he failed to observe a right turn at the north end of Government early this morning.

R. Allen Thompson, East Sound, Wash., was fined \$50 when he pleaded guilty in city police court to a charge of careless driving.

Damage to the car was estimated at about \$500.

The accident happened at about 2:50 a.m.

Thursday night, at 7:14, Mrs. R. Alan Thompson, East Sound, Wash., was fined \$50 when he pleaded guilty in city police court to a charge of carelessness driving.

Three of the car's wheels were smashed and parts of the suspension and underside scattered over a 91-foot path travelled by the car after it mounted a pedestrian island on Government and continued straight over the circle.

Thompson told police he didn't know how fast he was travelling north along Government

ment, but at any rate, he missed the turn.

Police said the car must have taken when it hit the first island. It climbed the 12-inch curb of the centre island, plowed across the grassed area, missed the fountain and ended up on the roadway where Gorge joins the circle.

Damage to the car was estimated at about \$500.

The accident happened at about 2:50 a.m.

Thursday night, at 7:14, Mrs. R. Alan Thompson, East Sound, Wash., was fined \$50 when he pleaded guilty in city police court to a charge of carelessness driving.

Damage to the car was estimated at about \$500.

The accident happened at about 2:50 a.m.

## SHOPPING GUIDE

## Goodies Galore to Tempt That Food Lovin' Family

By PENNY SAVER

Feel hungry? Well, if the weekend promises to be as fine as it was last week, we'll probably find you on the beach, at the lake, or just lazin' around the house. But, you still have to feed that hungry family, and you'll be slightly cheered, I am sure, to know that I have found some exceptional savings in food for this weekend. So away we go!

Guess what? Those vegetables seem to be going down, down, down, with two bunches of carrots at 17 cents. If you like tomatoes, you'll enjoy them at five pounds for 48 cents.

Potato salad is a picnic favorite and the potatoes will be priced at only 10 pounds for 49 cents. Go and see for yourself!

Well, I guess you'll be getting a steady diet of beets this weekend, because three bunches of beets are 29 cents!

Baked Hubbard squash is a wonderful addition to any dinner table and for three pounds you pay 29 cents.

Pickling these days? Green tomatoes are in season at present, and I found them at five pounds for 25 cents.

Scarlet runner beans are 19 cents a pound now. Mother, give that family a break. Give them beans.

Would you believe it? Canta-loupes are now selling at two for 25 cents.

If you are canning, peaches from the Okanagan are still on the market. They've gone down to \$1.79 a box!

Meats are incredibly low in price this weekend, with steak (sirloin and T-bone) at 73 cents a pound, and rump roast with first cut at 65 cents a pound at 79 cents.

You'll "penny save" this weekend if you find out where I shopped today. Phone me at 2-3131.

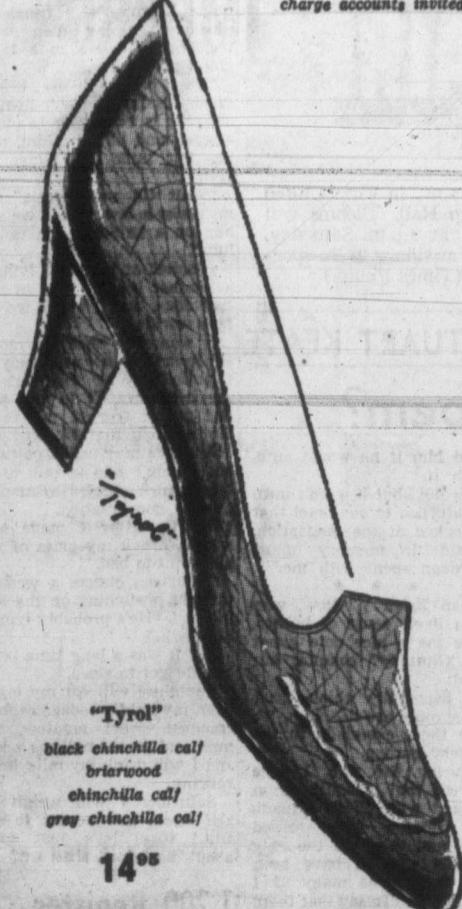

## Institute Members to Gather In City for Annual Meeting

More than 200 delegates and members representing 22 women's Institutes of Vancouver Island South, will gather in the Douglas Room at the Hudson's Bay next Tuesday for the annual conference.

Registration will be at 9 a.m. directly after store opening with sessions commencing at 9:30 a.m. Co-hostesses are the Institutes of Victoria, Craigflower and Strawberry Vale. District president Mrs. E. G. Woodward, Brentwood Bay, will preside.

Special guests at the meeting will be officers of the Clallam County, Wash., Homemakers Club, counterparts of the institutes, who were hostesses to Vancouver Island groups this summer at a picnic gathering. Alderman Austin Curtis, representing Victoria's mayor, will extend the city's welcome. He will be introduced by Mrs. E. E. McEwen, president of the Victoria Institute. British Columbia's superintendent of Women's Institutes, Mrs. Stella Jr.

## WHY GROW OLD?

By JOSEPHINE LOWMAN

My combination exercises are a bargain in time and in energy! While all exercises use more than one muscle group, some are more effective in slimming several spots with one exercise. In this day of rush and hurry a few good exercises can take the place of dozens of less effective ones. Today I will give you three of my bargains in exercise.

1. Lie on your left side. Bend your elbow and let it rest on the floor, head on hand. Swing your right leg backward as you swing your right arm forward. Your right arm swings backward as your right leg swings forward. Continue, arm and leg moving in opposite directions. Do this with a smooth, long rhythmic swing. If you have trouble getting started on this exercise, start with your right leg back and your right arm forward, and then swing. This is splendid for the hips and abdomen and also gives a little pull at the waist.

2. Stand on tiptoes with your left side to the wall and, if necessary for balance, place your left hand on the wall. Pull your abdominal muscles in and hold them there while you bend your knees half-way down. Straighten your legs and return heels to the floor. Relax. Do the same thing again with relaxations in between. Be sure to keep your back straight (do not bend at the waist) and your abdominal muscles pulled back toward the backbone.

3. The following exercise is slimming to the hips, abdomen, thighs and waist. Lie on the floor on your back with your legs straight and your arms on the floor, extending out from your shoulder pits. Palms face the floor. Cling to the floor with your fingertips. Raise the right leg up at right angles to the body. Cross the right leg over the left and touch the floor on the outside of the left leg. Raise the right leg up to right angles to the body again and lower it to the floor. This is a four count exercise: up, over, back up again, and down to the floor. After a while do the same thing with the left leg, crossing over to the right.

To conclude, I must mention the Mango chutney from India that I found today. It is just full of exotic spices and would be delicious with any type of meat dish. It costs \$1.55 and comes in a large jar for storing. For after dinner sweets, a tin of English toffee caught my eye. It is large and is priced at 79 cents.

Matron of honor, Mrs. M. Punt, and bridesmaids, Miss Beverly Punt and Miss Sylvia Weber were dressed in similar gowns of Chantilly lace over taffeta in shades of turquoise, pink and mauve. Their head-

Left to right, Mrs. John A. Turner, Mrs. Percy B. Scurrah, Mrs. G. F. Dunn and Mrs. Hugh Stephen

## Social Plans for Big Convention

Members of the Ladies' Committee to the Victoria Chamber social functions at the Canadian Chamber of Commerce have a big job ahead of them.

They will act as hostesses at the first time, Sept. 29 to Oct. 3, at a meeting, Wednesday, chaired by Mrs. Percy B. Scurrah, honorary chairman of the Ladies' Committee, plans for entertaining wives of delegates were made.

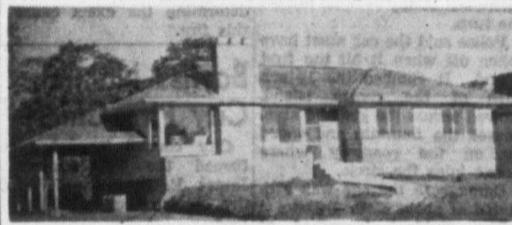

Mrs. Frank Mackenzie Ross, wife of His Honor, the Lieutenant Governor of British Columbia, has been invited to extend greetings to visitors at a tea in Butchart's Gardens.

Entertainment will also include a fashion show, tour and afternoon tea at Royal Roads and a tour of the Parliament Buildings.

Taking an active part in preparations are Mrs. John A. Turner, representing the Junior Chamber of Commerce on the Ladies' Convention Committee; Mrs. G. F. Dunn, wife of a director of the Canadian Chamber of Commerce and vice-president of the B.C. Branch and Mrs. Hugh Stephen, wife of Victoria's president.

## Membership Tea Precedes Meeting

Members of Solarium Junior League gathered last Sunday at the home of Mrs. Verna Elder, the vice-president, for a membership tea.

First meeting of the season was held on Monday evening with the president, Mrs. Gwen Carrier, in the chair. Progress reports were given by conveners on the following projects: Joe Kirkwood gold demonstration; "Paris in Trounce Alley," annual tag day, Sept. 28 and Farmerette Box Social at the beginning of November.

Final arrangements were also made for the League's mammoth pre-Christmas Carnival in the Bay Street Armory in mid-November. A Mardi Gras Ball will be held next February.

Canadian Daughters League, No. 5, Newstead Hall, Monday at 8 p.m.

By CENTAUR

FIRST RACE—Claiming, \$500, for 3-year-olds and up, foaled in Canada.

### SIX FURLONGS

PP  
2230 Name (Sherman) 118 Has speed to best those  
2231 Tom's (Webster) 118 Just can't lead  
2232 Mt. Tropic (Arterburn) 118 Still finds those tougher  
2233 My Silver Dime (Williams) 118 Second to Rio Drive  
2234 High Cat (Dunker) 118 Best same kind in Vancouver  
2235 Justice (Hawes) 118 Dances well  
2236 Ardent Hope (Loghy) 118 Disappointed on Thursday

2237 Bob Chaser (Broomfield) 119 Put close up if he goes  
2238 Bob's Final (Howe) 119 Another one will force them

SECOND RACE—Claiming, \$500, for 3-year-olds and up, MILE AND SEVENTY YARDS

### BULLETINS

#### Shifts in Senate

OTTAWA (CP)—Appointment of a new senator, George S. White (MP for Hastings—Frontenac) and award of a cabinet position to Senator John T. Haig, 80, Progressive Conservative senator leader in recent parliaments, was announced today by Prime Minister Diefenbaker. Mr. Diefenbaker said Senator Haig's cabinet post will "provide for liaison" with the cabinet. He will be a minister without portfolio.

A by-election will be held Nov. 4 to fill the Commons seat vacated by Mr. White. It is expected the Progressive Conservative candidate will be External Affairs Minister Sidney Smith, who was sworn in last Friday.

THIRD RACE—Claiming, \$500, for 3-year-olds and up, SIX FURLONGS

PP  
2239 Tsukasa (Arterburn) 118 Gets good past, good day  
2240 Tommy's (Howe) 118 Not bad, but could set up  
2241 Lausmeh (Broomfield) 118 Nicely weighted in here  
2242 Well Brod (Haller) 121 Brackets were well earned  
2243 Royal Driv (Haller) 121 Must see him perform  
2244 Oregon Lad (Sherman) 121 Nineteen races, no wins  
2245 Sonoworth (Howe) 118 Would be a big surprise

2246 Most of All (boy) 119 Also eligible

2247 Coran (Broomfield) 116 Had one good race here  
2248 Gatsby (Loghy) 116 Badly beaten in only out  
2249 Count K (Haller) 121 At least has a good jockey  
2250 Most of All (boy) 119 Unlikely to draw in

FIFTH RACE—Claiming, \$500, for 3-year-olds and up, SIX FURLONGS

PP  
2251 Plover Call (Broomfield) 118 Served notice in last  
2252 Baby Rose (Williams) 118 Couldn't get last time  
2253 Baby Rose (Broomfield) 118 Not bad, but could set up  
2254 Royal Driv (Williams) 118 Nicely weighted in here  
2255 Vegas Miss (Howe) 118 Went well with Miss Colleen  
2256 See You (Arterburn) 118 One try in S.C. Race  
2257 Chubbin (Sherman) 118 One try in S.C. Race

2258 Chik's Last (Dunbar) 119 Also eligible

2259 Gatsby (Loghy) 119 Nicely weighted; early speed

2260 Trial Judge (Broomfield) 119 Badly beaten in only out

2261 Dainty Colleen (Terry) 119 Recent form poor

2262 Chubbin (Broomfield) 119 Just matter of drawing in

FOURTH RACE—Claiming, \$500, for 3-year-olds and up, SIX FURLONGS

PP  
2263 Plover Call (Broomfield) 118 Repeat of last will do it  
2264 Baby Rose (Williams) 118 Recent races good  
2265 Baby Rose (Broomfield) 118 Nicely weighted in here  
2266 Vegas Miss (Howe) 118 Has been close occasionally  
2267 Frank Wells (Loghy) 118 Fairly good in only out here  
2268 Con Briv (Haller) 118 Would need a late turn  
2269 Diamond R (Arnold) 118 Newcomers haven't been winning

2270 Chubbin (Broomfield) 119 Also eligible

2271 Gatsby (Loghy) 119 Doesn't figure in here

2272 Miss Hutton (Haller) 119 Figures if she goes

2273 Rio Drive (Arterburn) 119 Could make it two straight

2274 Chubbin (Broomfield) 119 Checked his form Friday

2275 Frankly I'm It (Arnold) 119 Throw out first try here

2276 Chubbin (Broomfield) 119 Also eligible

2277 Baby Rose (Haller) 119 Was not tip but scratched

2278 Looks Better (Broomfield) 119 Close up in Oregon races

2279 Terrierly (Broomfield) 119 Won in mud and mainline  
2280 Chubbin (Broomfield) 119 Once more if it draws in

SIXTH RACE—Claiming, \$500, for 3-year-olds and up, SIX FURLONGS

PP  
2281 Horrie Bay (Richards) 116 Dropping down for this  
2282 Baby Rose (Haller) 116 Playing with last try  
2283 Baby Rose (Broomfield) 116 Will be charging in stretch  
2284 Who's Who (Haller) 116 Some fair ones Saturday  
2285 Gold Drive (Broomfield) 116 Beat some fair ones Saturday  
2286 Con Briv (Haller) 116 Not on recent form  
2287 Chubbin (Broomfield) 116 Would have the spirit, but  
2288 Frankly I'm It (Arnold) 116 Throw out first try here

2289 Baby Rose (Haller) 119 Also eligible

2290 Baby Rose (Broomfield) 119 Was not tip but scratched

2291 Looks Better (Broomfield) 119 Close up in Oregon races

2292 Terrierly (Broomfield) 119 Won in mud and mainline

2293 Who's Who (Haller) 119 Once more if it draws in

SEVENTH RACE—The Times' Handicap, for 3-year-olds and up, MILE AND SEVENTY YARDS

PP  
2294 Baby Rose (Parent) 113 Just loves this race track  
2295 Baby Rose (Haller) 119 Baby was born last Saturday  
2296 Baby Rose (Broomfield) 118 Not on recent form  
2297 Baby Rose (Broomfield) 118 Some fair ones Saturday  
2298 Baby Rose (Haller) 118 Fairly good in only out here  
2299 Baby Rose (Broomfield) 118 Con Briv, too, Saturday  
2300 Baby Rose (Haller) 118 Not what she was  
2301 Baby Rose (Broomfield) 118 Recent form says "no"  
2302 Baby Rose (Haller) 119 Fair race to My Lands

2303 Baby Rose (Broomfield) 119 Also eligible

2304 Baby Rose (Haller) 119 Failed badly recently

2305 Baby Rose (Broomfield) 119 Close up in Oregon races

2306 Baby Rose (Broomfield) 119 Won in mud and mainline

2307 Baby Rose (Haller) 119 Once more if it draws in

2308 Baby Rose (Broomfield) 119 Who's Who (Haller) 117 Ran third to Fairfield

## GROMYKO CHARGES:

# West Cause Of Mid-East War Crisis

UNITED NATIONS, N.Y. (CP) — Soviet Foreign Minister Gromyko blamed the West today for the tense Middle East situation. He declared Russia "cannot watch impassively over a situation that bears upon its own security."

The Soviet leader struck back vigorously at charges made by U.S. State Secretary Dulles that Russia is endangering peace in the Middle East by sending arms to Arab countries.

Addressing the 82-country General Assembly, Gromyko said:

"The Soviet Union cannot place itself in the position of an impulsive observer while the Near and Middle East—an area close to the frontiers of the Soviet Union, is being turned into a permanent hotbed of military conflicts."

He accused the West of inventing charges against the Soviet Union to hide its own intentions to dominate the Middle East.

He placed the blame specifically on the North Atlantic Treaty Organization and asserted that "rude political and economic pressure is being exerted" against Syria.

"Lately," he said, "she is being more and more frequently threatened with open military intervention."

He declared the U.S. position on the Syrian problem is ample proof "that the Eisenhower doctrine is completely hostile to the interests of the people of the Near East."

Dulles told the assembly Thursday Turkey is facing a "growing military danger" as a result of Soviet arms massed along the Syrian border and also along the Soviet-Turkish frontier.

In this connection, Gromyko said:

## Flu Vaccine Ready When Queen Visits

OTTAWA (CP) — Health Minister J. Waldo Monteith said today stocks of anti-Asian flu vaccine will be on hand at Government House during the visit next month of the Queen and Prince Philip.

The stocks would be a precaution only.

Whether the Queen would receive such vaccine was for Buckingham Palace to determine, presumably before she leaves for Canada, he said following a cabinet meeting.

## LONDON LOVELY CITY AS FAR AS GIRLS GO

TORONTO (BUP) — A Canadian newspaperman in England reported today he found little to like in London except the girls.

Stan Rantan of the Toronto Star says London is "one of the largest, and undoubtedly one of the dirtiest, most crowded and exasperating cities in the world."

"In six months here, I've lost 40 pounds," he said, "just trying to buy a decent meal."

But a redeeming feature of London life "is the London girls," Rantan said. "They sure know how to be women."

2 Victoria Daily Times  
FRIDAY, SEPT. 20, 1957

## TYPHONS THREATEN PHILIPPINES

MANILA (AP) — Two typhoons swirled out of the Pacific toward the Philippines today threatening the rich agricultural areas of northern Luzon Island.

The newest typhoon, named Gloria, was last located 80 miles east of the eastern Luzon coast. It packed 140-mile-an-hour centre winds. The Manila weather bureau said it was expected to hit Luzon sometime to night or early Saturday.

Typhoon Faye was reported 400 miles west of Guam with winds of 150 miles an hour.

## Armed Thugs Rob Mainland Ferry Terminal

VANCOUVER (CP) — Police throughout the B.C. lower mainland area today searched for three men who robbed a ferry office attendant of about \$450 and left him bound and helpless shortly before midnight Thursday night.

William Cocks of West Vancouver was found in the Black Ball ferry office when one of the company's ferries arrived at Horseshoe Bay at 12:20 a.m.

He said two men, one armed with a pistol, entered the office and forced him to lie on the floor where they bound him with two-inch masking tape, then looted the office.

Company officials said the money taken had been brought to the office for change for an anticipated traffic rush early to day. Company was robbed of \$10,000 two years ago.

The ferry office attendant said Thursday night's bandits wore black plastic raincoats and fedoras. They fled in a car at high speed and believed to have crossed Lions Gate bridge into Vancouver.

Gromyko also submitted two other resolutions on atomic weapons. They provided that:

1. All test explosions of nuclear weapons be stopped Jan. 1, 1958, for a period of two or three years.

2. All nations possessing nuclear weapons undertake a temporary obligation not to use atomic or hydrogen weapons for a period of five years.

Prime Minister Sidney G. Holland of New Zealand resigned today because of ill health. He took office in 1949. Named to succeed him is Deputy Prime Minister Keith Holyoake. (CP)

THANKS

to our customers and friends for their continued patronage. Last Friday, Sept. 13th, when the gas pressure was so low we were unable to give out usual quick service. And the Gas Company, who worked through the night to enable us to carry on Saturday.

## Bold Bid by Premier To Save French Gov't

central government organ for Algeria with an elected president.

### GOVERNOR

Continued from Page 1  
Negro students in Little Rock Central High School.

Davies said the Faubus motion was "not legally sufficient" and not timely.

Faubus remained in the governor's mansion. It was the second consecutive day on which he declined to come into court. Thursday, he refused a federal court subpoena for another civil rights lawsuit.

Faubus was not strictly required under a summons to appear in person today. The U.S. district court clerk said he could be represented by lawyers.

Inside "the small courtroom, one side was completely filled with white spectators, the other side predominantly by Negroes with a few white spectators."

The case is the first test of authority by the U.S. government with a state government over the issue of integrating the public schools racially.

It is a landmark case in the struggle over civil rights.

In one sense, it is the federal government versus Governor Faubus who, on the night of Sept. 2, sent national guardsmen to Central High School in Little Rock with instructions to turn away Negroes who tried to enroll.

But in a broader sense, the issue goes back through the pages of a story as old as the republic itself — the line of demarcation between federal and state authority.

The issue is clear and simple. Did Faubus make illegal use of the National Guard in ordering the soldiers to keep the Negroes from entering a school, violating the constitutional rights of the students?

That is the government's contention.

Or did the governor's mandate to maintain peace and order in the state give him the right to use the guardsmen on such a mission?

That is Faubus' contention.

## Hand-Made Air Gun Caused Dart Death of Smuggler

GENEVA, Switzerland (UP) — Swiss police ruled today that a hand-made noiseless air gun

killed adventurer Marcel Leopold without the help of poison.

An autopsy report said a tiny metal dart from the gun caused internal bleeding which poured into Leopold's lungs and suffocated him.

Leopold, 55-year-old smuggler and old China hand, died only a few minutes after the dart, fired by an unknown assailant, struck him as he approached the entrance to his downtown apartment.

His last words to his wife were "I've been poisoned."

But Dr. Francois Naville of the University of Geneva said no trace of poison was found on the dart.

Police said Leopold had a mysterious past that included imprisonment in China by the Communists and arrest in Geneva for attempted smuggling of explosives into Algeria.

The 200-pound Leopold staggered to his front door and died in his wife's arms. Police found the air gun hidden under a beauty parlor door mat, a floor below Leopold's apartment.
